Yes, of course. I asked that they also send a copy to Breedlove. I think he could use something in hand to make a decision about his legislative/lobbying relationship with CWAG.

Judy Rank, who is contributing to the letter, called to get updated on what's going on because she was not aware of most of the happenings. I told her that I didn't want him to just "change" i.e., conform to demands, but rather I want him OUT.
