Monday August 24th, 2026

CELEBRITIES BORN ON THIS DAY: Rupert Grint, 38; John Green, 49; Dave Chappelle, 53; Cal Ripken Jr., 66.

Happy Birthday: Expect a tug-of-war regarding money, medical or contractual decisions this year. Spontaneity can make or break you. Listen to your inner voice. When in doubt, sit tight and refuse to let outside influences steer you in a direction where you could be vulnerable. Take your time, insist on testing before you commit and engage in whatever grabs your attention from beginning to end. Your numbers are 8, 12, 24, 33, 39, 41, 48.

ARIES (March 21-April 19): Precision and detail, along with good timing, will be necessary if you want to succeed. Use your connections and experience to zigzag your way through the dips and dives you face professionally and financially. How you use your skills and cash will determine how much you achieve. Commit yourself to hands-on help to ensure you reach your goal. ★★

TAURUS (April 20-May 20): Take charge, put a plan of action in place and pursue your dreams. Refuse to let obstacles stand in your way. Deal with matters head-on, and clear your path to freedom. Look at the big picture, consider what you need and find a balance that satisfies your soul. Focus on completion and new beginnings.

★★★★★

GEMINI (May 21-June 20): Push for change. Do your research, and forge ahead with the intent of making a difference. Whether you learn something new that boosts your qualifications or motivates you to pick a new direction in life, the outcome will lead to a lifestyle change and personal or professional growth. A commitment to yourself or someone you love is favored. ★★

CANCER (June 21-July 22): Analyze every situation before you engage. Having a clear picture of what's unfolding is critical to the outcome. Whether you are facing a financial or relationship issue, restraint, referrals and common sense are your best alternatives. Refuse to let anyone talk you into something that isn't in your best interest. Know when to say no. ★★

LEO (July 23-Aug. 22): Reach out, be supportive and get involved. Taking an active role in bringing about change will satisfy your soul and encourage you to engage with like-minded people. In a time of diversity, it's important to find a platform that allows you freedom of speech and a better quality of life. Opportunity comes to those who act. ★★

VIRGO (Aug. 23-Sept. 22): Distance yourself from impulsive situations, temptation and erratic decisions. Refuse to feel cornered or vulnerable. Use your intelligence to guide you forward. Play your cards close to your

chest and negotiate your position with tact, secrecy and confidence. Manage your money, reputation and position with care. Offering alternatives will give you the edge necessary to ensure a resolution. ★★★★★

LIBRA (Sept. 23-Oct. 22): Listen to your inner voice. Now is not the time to waffle. Take the time to research and find answers and solutions before committing to something that can affect your personal or professional life. Protect your reputation by keeping your feelings and gestures to yourself until you feel confident to make a motion for change or accept someone else's demands. ★★

SCORPIO (Oct. 23-Nov. 21): Tone it down. Too much of anything will work against you. Distance yourself from those pressuring you to go big or go home. Put more effort into doing what's best for you and gathering information that will help you decide what you want to do next. A learning experience will offer insight and the courage to be proactive. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Change begins with you and your lifestyle. Don't limit yourself. When there's a will, there's a way to satisfy your heart's desire. Focus on home, comfort and convenience. Live within your means and ease stressful situations by being open about your likes and dislikes. Living a lie will lead to vulnerability; truth and honesty will set you free. ★★

CAPRICORN (Dec. 22-Jan. 19): Welcome a life lesson. Learn to express yourself with thought and patience. An act in haste will lead to setbacks and regret, and it will send the wrong message. Avoiding trouble will save your reputation and cash you don't want to dole out. Pay attention to detail, and give yourself a chance to consider consequences. Choose peace over chaos. ★★

AQUARIUS (Jan. 20-Feb. 18): Positive change is within reach. Don't sell yourself short; go after what you want. Control the outcome instead of waiting for things to happen. Trust and believe in your talent and skills. Discipline, hard work and determination will help you find and appreciate who you are and what you can do.

Push forward with trepidation. ★★

PISCES (Feb. 19-March 20): Put your energy where it counts. How you relate to others will make a difference in what you get back from the conversations you have and the truths you speak. Stick to your beliefs, and surround yourself with people who motivate and inspire you to follow your heart and dreams. A give-and-take attitude will help you gain ground. ★★
