

# Continuity of Care Request Form

## INSTRUCTIONS

If your health care provider or facility is leaving the network of your health plan, you may ask your health plan for continued coverage of treatment by that provider or facility at the in-network benefit level for a limited period of time. This is called "continuity of care." State and federal laws require your health plan and the provider to agree to this arrangement for certain types of providers and health care conditions. You must submit this form to request continuity of care. You and your health care provider must provide all the information requested below to allow your health plan to determine if you qualify for continuity of care under state or federal law.

Please complete a separate form for each provider and health care condition for which you are requesting continuity of care.
