Monday December 15th, 2025

CELEBRITIES BORN ON THIS DAY: Michelle Dockery, 44; Adam Brody, 46; Julie Taymor, 73; Don Johnson, 76.

Happy Birthday: Initiate change, and don't look back. Turn your dreams into a reality, your aspirations into something tangible and your life into something that soothes your soul and fills your heart with gratitude, peace and love. Refuse to let the negativity in your life stand between you and the happiness you desire and deserve. Choose your path and forge ahead with discipline, a budget and a plan. Your numbers are 4, 18, 23, 31, 35, 38, 43.

ARIES (March 21-April 19): Don't waste time. Running about and taking care of year-end obligations that deter late fees will put your mind at ease and make your life less stressful. Travel, communication and a personal pick-me-up will enhance your day and encourage you to engage in playful antics with those you favor. ★★

TAURUS (April 20-May 20): Pick up the pace and start conversations that will take care of any questions others have or responsibilities that require your attention. Leave nothing to chance, and you'll enjoy the hustle and bustle the festive season generates. 'Tis the season to be joyful and uplifting, not a humbug and difficult. Replace overspending with kind gestures. ★★

GEMINI (May 21-June 20): Pay attention to detail when dealing with personal and professional partners. Consider how you can grab attention and gain interest in what you propose to do or what you can offer others. Don't make promises you can't keep; stick to what you know and do well, and deliver what you can with a smile. ★★

CANCER (June 21-July 22): Put one foot in front of the other and take care of business. Make yourself aware of what others are doing and how it will influence the choices you make. Staying ahead will help you react with clarity, speed and confidence as you convince others to follow suit. Don't wait for someone to outmaneuver you. Take control. ★★

LEO (July 23-Aug. 22): Refuse to let a personal dilemma thwart an event you are looking forward to attending. Get out and mingle. The conversations you have and the people you meet will offer a unique perspective that may not fit your budget or skills, but can be adapted to suit your needs. Learn as you go, and you'll get positive results. ★★

VIRGO (Aug. 23-Sept. 22): Discuss matters openly and follow through with your plans. Don't waste time arguing when compromise is necessary. Saving money, meeting deadlines and staying on top of your responsibilities

are essential if you want to reach your expectations. Timing is the quintessential genius behind success. Look, see and do, and then reward yourself for your accomplishments. ★★

LIBRA (Sept. 23-Oct. 22): Do whatever it takes to keep up. Don't trust anyone with your responsibilities. Only take on or promise what's feasible. Temptation will grab your attention, but before you give in, calculate the emotional, financial or physical costs. Simplify your surroundings and focus on vehicles to excel. Travel, learn and adapt to whatever circumstance unfolds. ★★

SCORPIO (Oct. 23-Nov. 21): Analyze what you face before forging ahead. Acting in haste will turn into an expensive lesson. Choose a unique path and adapt it to fit your needs. A change will encourage you to rethink how you want to enter the upcoming year. Patience is a virtue, and doable plans are a necessity if you want to get ahead. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Carry yourself forward with pride and the intent to finish what you start and to make a difference where you can. Focus on change that makes you feel good and encourages you to add to your skills and your aspirations to ensure you fulfill whatever void you encounter. Take charge; your future is yours to complete. ★★

CAPRICORN (Dec. 22-Jan. 19): Emotional excitement will surface, causing confusion and the need to revisit and revamp your plans moving forward. A networking event or social encounter will offer insight into what's possible, how to get what you want and when it will all come to fruition. Put a timeline together, set your intentions and perfect what you want to reiterate to ensure success. ★★

AQUARIUS (Jan. 20-Feb. 18): Think before you speak. To get the changes you want to see accepted by those you live or work alongside, you'll need a fail-proof plan and incentives in place. A little charm will get you where you want to go, but if you use emotional manipulation, you will face rejection. Know your target, and market accordingly. ★★

PISCES (Feb. 19-March 20): Set guidelines and know your limitations, your attributes and what to share and what to keep secret. Gauge how others will respond, and have a backup plan that ensures you at least get your foot in the door. Time is on your side. Play the long game, and you'll make your way to the winner's circle. ★★
