

# HOROSCOPE by EUGENIA LAST

**Monday May 25th, 2026**

**CELEBRITIES BORN ON THIS DAY:** Aly

Raisman, 32; Demetri Martin, 53; Octavia Spencer, 56; Mike Myers, 63.

**Happy Birthday:** Change can be good if you set a budget and pay attention to how your body responds. Maintaining a healthy lifestyle and making decisions that calm your nerves and set you up for success will keep you moving in the right direction. Know when to let go of what is no longer working for you and how to parlay a negative into something positive to achieve peace, gratitude and satisfaction. Your numbers are 3, 16, 22, 27, 34, 39, 45.

**ARIES** (March 21-April 19): Take a moment to reflect before you do or take on something new, extravagant or time-consuming. Protect your home, possessions and health from overload. A lifestyle change may be necessary to manage your time and money more efficiently and lower stress. You don't have to please everyone, but you do need to please yourself. ★★★

**TAURUS** (April 20-May 20): Play the long game. Take your time; ease into what you want with adaptability and insight regarding what compensations will keep you in the running and protect your interests. Timing and precision are everything when it comes to getting what you want. Leave diagnoses to the experts. Take better care of your health; avoid risks and injury. ★★★★★

**GEMINI** (May 21-June 20): Walk away from whatever is holding you back instead of wallowing in a never-ending situation you cannot salvage. It's strength, courage and discipline that will carry you forward and help you make your mark. Test the possibilities, and replace the old with something new and vibrant. You'll discover the path that leads to happiness. ★★

**CANCER** (June 21-July 22): Emotional confusion will surface if someone pressures you or isn't specific regarding their intentions. Don't make assumptions, judge or take on someone else's responsibilities. Your power comes from taking care of your needs and pursuing what makes your life better before you turn your attention to someone trying to find others to do the work for them. ★★★

**LEO** (July 23-Aug. 22): Listen, learn and let go of what's no longer necessary. Express your plans and gather input from those you trust to point out something you may not notice. A partnership looks promising if you are open and honest regarding your expectations and what you are willing to contribute. Explore the possibilities, and weigh the pros and cons. ★★★

**VIRGO** (Aug. 23-Sept. 22): Keep your thoughts to yourself. Revealing your next move will be counterpro-

ductive. Focus on gathering information, testing what's valid and discarding what isn't, and being honest with yourself regarding what's feasible and what's unnecessary. Put your energy where it does the most for you, not into proving someone else is wrong. ★★★

**LIBRA** (Sept. 23-Oct. 22): Emotions will fluctuate, causing uncertainty and overreacting if you aren't honest with yourself or others. Ask questions; what you see or how you react will not represent what's coming your way. Take the high road. Say and do little as you let things unfold, and you'll gain insight that will curb your reactions to reflect what's happening. ★★★

**SCORPIO** (Oct. 23-Nov. 21): Pay attention, channel your energy into something worthwhile, be open to new possibilities and gather information without judging or conflicting interests. Be more observant and less willing to take someone's word as gospel. Your biggest returns will come from discipline, hard work and being grateful for what you have. Make personal growth your goal.

★★★

**SAGITTARIUS** (Nov. 22-Dec. 21): Something interesting will push you in a new direction that suggests a lifestyle change. A chance to develop a healthy routine or pastime that encourages looking and feeling your best will boost your confidence. What you share with someone like-minded will grow into something worthwhile.

Check out a joint venture. ★★★★★

**CAPRICORN** (Dec. 22-Jan. 19): Take precautions. Read the fine print, observe and let your gut dictate your next move. Being a follower doesn't work for you. Be the one to lead the way and to decide how you reach your objective. Let your experience determine what's best for you, especially when it comes to money management. Leveraging yourself will cause stress. ★★

**AQUARIUS** (Jan. 20-Feb. 18): Your decisions are dependent on being comfortable. You may be overdue for a change, but the extent and cost are what matter. A simple change to your routine or meeting someone new may be sufficient, depending on what stage of life you are in. Perhaps a complete overhaul, or change of location, may be what you need to thrive. ★★★

**PISCES** (Feb. 19-March 20): Make personal gain your goal. Trying to please others will put you in a vulnerable position. Listen and make suggestions, but put your time and energy into something that has more to do with safety, security and comfort, not entertaining or taking on too much debt or responsibility. Be true to yourself and satisfy your needs. ★★★
