Friday June 19th, 2026

CELEBRITIES BORN ON THIS DAY: Macklemore, 43; Zoe Saldana, 48; Jean Dujardin, 54; Paula Abdul, 64.

Happy Birthday: You're in a better position than you realize. Keep your emotions to yourself. Choose words that are bold, direct and factual, and you will cut through any negativity that comes your way. The clearer and clearer your message and actions, the quicker the results. A change at home will give you the boost you need to follow through with your aspirations. Romance is highlighted. Your numbers are 6, 14, 23, 28, 34, 42, 49.

ARIES (March 21-April 19): Take advantage of an opportunity to mingle with industry people who can help you further your professional journey or explore the possibilities of using your skills to generate extra income. An attitude change will help seal a deal. Make confidence your new best friend. A creative spurt will enhance your chance to advance. ★★★★★

TAURUS (April 20-May 20): Persistence and good ideas will get you where you want to go, but not without emotional issues tagging along. Separate personal and professional dealings. Containing what irks you while sharing what you feel passionate about will lead to a win-win situation. Know your target, project positive affirmations and rise above confrontation. Push love, not discord. ★★

GEMINI (May 21-June 20): Put your energy where it counts, and forge ahead. Domestic improvements require attention to avoid emotional interference. Choose your battles wisely. Keep in mind that it's what you accomplish that counts, not taking on a no-win situation. Let go of what's standing in your way. Embrace what's yours to discover. Choose peace over chaos. ★★★★★

CANCER (June 21-July 22): Be realistic about what you can and cannot do before you make promises. Being precise and finding out what others want from you will help you negotiate your way forward. Emotional spending will leave you worse off and regretful. Concentrate on how you earn your living and what you can do to increase your income. ★★★

LEO (July 23-Aug. 22): Let your creative imagination run wild, and you'll discover something about yourself and your capabilities that will point you in an interesting direction. A person you encounter today will play a role in helping you shape what's to come. Ask questions, and participate in events that offer insight into what's available to you. Choose romance over upset. ★★★

VIRGO (Aug. 23-Sept. 22): An unexpected turn of events will lead to an emotional challenge. Don't act in haste. Size up situations, consider options and put your

energy into taking care of your responsibilities first. You'll be glad you took your time to let the facts unfold.

Your patience will lead to a surprising opportunity. ★★★

LIBRA (Sept. 23-Oct. 22): Keep a close watch over your investments, possessions and reputation. Not everyone will be on Team Libra. Hold your cards close to your chest, and fact-check every piece of information that comes your way. Any changes you make will require a healthy intuition and the ability to sprint when the time is right. Self-improvement and love are favored. ★★★

SCORPIO (Oct. 23-Nov. 21): Make it happen. Exploit your skills and experience to the limit, and you'll surpass anyone who wants to compete with or challenge you. Staying power, along with vision and being able to reach your goals, will lead to satisfaction and gratitude. Look for unique outlets to disperse anxiety and anger. Physical and social events are favored. ★★★★★

SAGITTARIUS (Nov. 22-Dec. 21): Take a moment to breathe, rethink your goals and to take the path least anticipated by others. A change is heading your way that may not be to your liking, but hindsight will make you think otherwise once the dust settles. Go with the flow, stick close to home and protect what matters most to you. ★★

CAPRICORN (Dec. 22-Jan. 19): Search for opportunities, and speak passionately about how you feel, what you care about most and how you intend to proceed. Refuse to let your emotions lead to financial or personal loss. Don't pay for someone else's mistake; offer suggestions, but don't do the work for them. Conversations will be misleading; wait for verification before you share or act. ★★★★★

AQUARIUS (Jan. 20-Feb. 18): Shift your attention to what's necessary before you make a move. Getting things right the first time is essential if you want to make the most of a volatile situation. Keep your plans a secret and your responsibilities up to date. Anger will not solve anything, but compromise will. The intent is to ensure the result favors everyone. ★★★

PISCES (Feb. 19-March 20): Take time to research. Being well-informed is the key to better outcomes. Conversations with those with common goals will offer insight into how you can expand your interests and create a sustainable lifestyle that satisfies your needs and intellectual growth. A creative venue will help you find your people and excel at something you want to pursue. ★★★
