Happy Birthday: Speak from the heart, and stir the pot this year if that's what it takes to make others aware of your concerns. Be the anchor -- the one who cares, contributes and offers a concerted effort to have a positive impact on another's life, love and overall happiness. You are overdue for a change, and your contributions will put you in a position to make a difference. Your numbers are 2, 14, 19, 22, 27, 34, 46.

ARIES (March 21-April 19): Put your energy where it will do some good and be uplifting for you and those you help. Volunteering your time or services will change how you feel about and manage your finances. Put more time and effort into learning about grants and investments that can save you money and help you lower your living expenses. ★★★★★

TAURUS (April 20-May 20): Discipline will help eliminate regret and failure. Focus on what matters to you most, and nurture relationships that make your life a little brighter. Pay attention to how you present yourself to others mentally, physically and emotionally. It's essential that you are true to yourself and to those you care about most. Romance is in the stars. ★★★

GEMINI (May 21-June 20): Proceed with caution. Your words and actions will have an impact on those on the receiving end. Be kind, not cutting, and you'll gain respect and the support you need to reach your objective. Put your energy into working alongside others and compromising where necessary to resolve issues. Avoid taking risks with your health and physical well-being. ★★★

CANCER (June 21-July 22): Pay attention to your needs. Learn from past mistakes; avoid being neglectful of symptoms you shouldn't ignore. Speak up if you feel passionate about something, and make your voice heard. Your discipline and dedication to your beliefs will pave the way for those who look up to you. Self-improvement will boost your confidence and reputation. ★★★

LEO (July 23-Aug. 22): Let your creative imagination flow, and you'll figure out how to get the most out of your talents, skills, connections and dreams. Put more energy into relationships that complement your attributes and encourage you to do your best. Refuse to let the changes going on around you upset your plans or discourage you from sharing your beliefs. ★★★★★

VIRGO (Aug. 23-Sept. 22): Unusual people, places and pastimes will attract your attention. Embrace what and who comes your way with an open heart, eyes and

ears. What you discover will broaden your awareness and purpose, and encourage you to do your part to have a positive impact on what concerns you. Live life your way. ★★

LIBRA (Sept. 23-Oct. 22): Let your imagination lead the way, and your energy help you make the lifestyle changes that encourage you to follow what makes you feel alive and passionate about what you achieve. It's up to you to take the initiative and turn your dream into a reality. Seize the moment, act on instinct and trust your gut. ★★★★★

SCORPIO (Oct. 23-Nov. 21): One step forward and three steps back will unfold if you let anger precede your talent, charm and ability to put your magic to work for you. You are overdue for a change, but procrastination is the enemy that can crush your chance to excel. Stop talking, and start moving forward. Lifestyle changes, love and self-improvement are favored. ★★★

SAGITTARIUS (Nov. 22-Dec. 21): Set a plan and budget in place, and move forward with vigor. Refuse to let an outsider influence or stifle your plans or mislead you when you must project everything you've got mentally, physically and emotionally into reaching your goal. Time is precious, and if you channel it correctly, what you end up with will exceed your expectations. ★★★

CAPRICORN (Dec. 22-Jan. 19): Be direct, ask questions and bypass anyone who cannot give you a straight answer. Confusion is your enemy, and facts and figures are your ticket to success. Put your plan in place, and trust your instincts, knowledge and experience to carry you forward. Recognize who deserves to be on your team and who doesn't. ★★★

AQUARIUS (Jan. 20-Feb. 18): Your energy requires direction. Once you grasp what's most important to you, nothing will stop you from reaching your objective. Precision, patience and purpose are the factors that contribute to your awesomeness today. Don't stop when the sky's the limit. Use your money, brainpower and ingenuity, and proceed with confidence, direction and fair play. ★★★★★

PISCES (Feb. 19-March 20): Look, assess and follow through, and the returns will far exceed the stress and work you put into getting your way. Trust your instincts and let your intuition carry you through to completion, and you will find peace of mind in the outcome. The personal growth you gain will take you far beyond your expectations. ★★
