Monday February 16th, 2026

CELEBRITIES BORN ON THIS DAY: The Weeknd, 36; Elizabeth Olsen, 37; Ice-T, 68; LeVar Burton, 69.

Happy Birthday: Concentrate on what's important and brings meaning to your life this year. Expand your interests to include what you enjoy doing most and figure out how you can turn your passion into something lucrative, meditative or satisfying. Life choices will determine how well you do and how good you feel about yourself. Change requires energy, positive reinforcement and surrounding yourself with the right people. Your numbers are 7, 15, 19, 27, 31, 33, 46.

ARIES (March 21-April 19): Put your time and energy into helping others. Don't donate money; offer your time, skills and patience to those in need, and the rewards will be more gratifying than you can imagine. Pace yourself when dealing with home improvements and people who are excessive or trying to take advantage of your kindness and generosity. ★★★★★

TAURUS (April 20-May 20): Don't let ego get in the way. You'll make gains if you put your energy and skills to work. Check out what's available that can make your life easier or help you financially. Look into grants and incentives offered by institutions or government agencies. Your efforts will lead to greater security and a better quality of life. ★★

GEMINI (May 21-June 20): Get the facts, pay attention to detail and honor your word and the promises you make. A change of location or interests will broaden your vision regarding what you want to pursue next and who you want to associate with and learn from. You'll gain insight by helping others and learning through research, travel and educational pursuits. ★★★★★

CANCER (June 21-July 22): Stick to what you know. Act on your own behalf. Learn as you go and be open to change, and you will excel mentally, emotionally and financially. How you respond to others will affect how much information is shared. Stoke the fire with kindness and consideration, and by contributing what you have to offer. ★★

LEO (July 23-Aug. 22): It's OK to dream, but don't fall short on your promises. Only offer what's feasible. You may crave change, but if the timing is wrong, you're best to wait. A lack of practicality regarding money, debt and how you distribute what you earn will lead to complications. Rethink your lifestyle, lower your overhead and hit the reset button. ★★

VIRGO (Aug. 23-Sept. 22): Pay attention, nurture meaningful relationships and rethink your work-play ratio. Participate in events that you find mentally stimulating. Interacting with people who offer a unique

perspective on different lifestyles will impact you. A partnership will help you bring about positive change in your life or make a difference in a cause or concern you care about. ★★

LIBRA (Sept. 23-Oct. 22): Talk to people; mingle, observe and show how passionate you feel about life, love and matters that concern you. Put more effort into making your home user-friendly, and you will find it easier to reach your goals. Size up situations, what you can do to make things better and how much it will cost to complete your mission. ★★★★★

SCORPIO (Oct. 23-Nov. 21): Think matters through thoroughly before you implement change. Not everyone will be on the same page as you. Get permission, the go-ahead and the support you require to reach your destination before you begin. Personal growth, physical upgrades and connecting with people who enrich your life will encourage self-confidence. Romance is in the stars. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Spend more time acting and less time hyping up what you intend on doing next. Actions speak louder than words and help keep criticism at bay. Focus on how you use your money to improve your life. Home improvements that lower your overhead will also ease stress and encourage you to make better choices. Follow your instincts, not others'. ★★★★★

CAPRICORN (Dec. 22-Jan. 19): Size up your expenditures, and set a budget and time frame that's reasonable. Refuse to let anyone talk you into something you don't need or cannot afford. Well-thought-out change and doing the legwork yourself will pay off and lead to new and exciting opportunities. Adjust how you use your skills and experience to fit what's in demand. ★★

AQUARIUS (Jan. 20-Feb. 18): Choose the path that opens your mind to a host of new ideas and opportunities. Put your strength, courage and discipline to work for you. Dream, fine-tune and direct your energy where it matters most. Positive changes that are heartfelt and worthwhile will get you where you want to go. Self-improvement will encourage new beginnings. ★★

PISCES (Feb. 19-March 20): Take care of unfinished business before you start something new. You'll gain insight into what's possible if you are free to devote your undivided attention to what's next. Charm, love and awareness will capture attention and let your imagination take over and your physical actions complete your mission. Romance is favored. ★★
