Life is about growth, change and finding the path that satisfies your needs. Don't bend to others. Follow your heart, and turn your dreams into a reality. Love and romance are on the rise. ★★

CANCER (June 21-July 22): A steady pace is your best bet. Taking on too much will lead to frustration and regret. Don't limit what you can do; instead, focus on what's most important to you. Face facts when it comes to your current situation, and recognize the changes that will put you back on track and your mind at ease. ★★

LEO (July 23-Aug. 22): You know how to play the game, so don't sit on the sidelines. Look for every opportunity to display your skills and to reach your goal. might cost you. ★★

LIBRA (Sept. 23-Oct. 22): Take the back roads, be observant and when in doubt, stick close to home. How you deal with others will make a difference in what you get in return. SCORPIO (Oct. 23-Nov. 21): Your options show promise and despair. Take the time to sort through the pros and cons and to eliminate anything that may pose a problem for you. Speak on your behalf and make your position clear. Turn down whatever doesn't fit into your agenda, but keep what does. Making good decisions will lead to personal gains and a stellar reputation. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Close in on what you want. Take the plunge, and satisfy your soul. You have plenty to gain if you trust and believe in yourself and you recognize how you can use your skills and experience to get ahead and contribute to something you believe in. Speak with passion, and you'll draw a crowd and support. Romance is favored. ★★

CAPRICORN (Dec. 22-Jan. 19): If you express your honest opinion, you'll spare yourself turmoil. Addressing issues instead of letting them fester and grow will help you remove yourself from unsavory situations. Honesty is the best policy, even if it is the most difficult to pursue. Choose to set yourself free instead of letting your fear of failure take you down a lonely path. ★★

AQUARIUS (Jan. 20-Feb. 18): Step up, make things happen and celebrate your success. It may seem impossible, but once you take the first step, you'll discover how to sprint toward happiness. It's time to make your way forward with vim and vigor and to get your life rolling in a direction that makes you feel good about yourself and your future. ★★

PISCES (Feb. 19-March 20): Redefine what you want and what you've already got. It's time to shake up your routine, rethink your future and consider what truly makes you happy.
