Thursday March 26th, 2026

CELEBRITIES BORN ON THIS DAY: Keira

Knightley, 41; Kenny Chesney, 58; Catherine Keener, 67; Martin Short, 76.

Happy Birthday: Keep your thoughts, intentions and reactions to yourself. Bring about positive lifestyle changes that address how good you look and feel about yourself. Be honest with yourself and loved ones to avoid emotional interference and setbacks. Life is about personal growth, recognizing what's meaningful to you and eliminating what's stealing your time. Update your routine to satisfy your needs instead of trying to please others. Strive for optimism, fair play and completion. Your numbers are 9, 14, 23, 27, 31, 39, 44.

ARIES (March 21-April 19): Too much of anything will hold you back. Look inward, consider what matters most and hone your skills to adjust whatever appears to be out of whack. Dive deep into your subconscious, and apply more thought and energy to making your home and close relationships better. Equality and honesty are essential to achieving a positive outcome. ★★

TAURUS (April 20-May 20): It's time to shake things up. Mental stimulation will set the wheels in motion and help you navigate your way forward with precision and detail. Be open to suggestions, and you'll find a way to update and fine-tune your skills to suit what's in demand. Look for grants, incentives and courses that can help you expand your interests. ★★★★★

GEMINI (May 21-June 20): Get the facts firsthand, and make a difference. Whether you focus on your needs or reach out to help others, the process will be uplifting and open doors that offer insight into what's next and how you can adjust your plans to meet demands. Invest your time, energy and money in exploring and expanding your connections and talents. ★★

CANCER (June 21-July 22): Start a conversation, find out where you stand and apply the information you receive to initiate positive changes that open doors both personally and professionally. Avoid letting negativity and criticism set in. Look for the good in everyone and everything, and you'll attract the right people. Share your intentions and speak from the heart, and opportunity will prevail. ★★

LEO (July 23-Aug. 22): Whatever you do next, weigh the pros and cons before entering situations that dictate what happens next. Protect your reputation, remain current and stick to the facts. Put your energy where it counts, do what you say and keep your feelings to yourself. Mixing business with pleasure will compromise your position, leaving you vulnerable. ★★

VIRGO (Aug. 23-Sept. 22): You can make a difference. Reach out, make suggestions and participate in events and

activities that address issues of concern. The people you connect with and the petitions you sign will lead to introductions that touch your heart and bring out the best in you. Don't let your enthusiasm lead to overextending yourself physically or financially. Keep it simple. ★★★★★

LIBRA (Sept. 23-Oct. 22): The people and places that attract you will not be looking out for your best interests. Listen carefully, and refrain from offering personal information. Only share what you can protect and bring to fruition with or without outside help. Learn from past experiences. A partnership can work if it's strictly business and contractually sound. ★★

SCORPIO (Oct. 23-Nov. 21): Set yourself up for success. Trust and believe in your abilities, and reach out to those who are heading in the same direction. What you share will be reciprocated, encouraging and offering insight and connections that can help you turn your goals into something tangible. Work-related events will change your perception of someone of interest. ★★★★★

SAGITTARIUS (Nov. 22-Dec. 21): Take note of what others do or say, but don't follow suit. Focus more on what makes you happy, and choose a lifestyle that allows you to fulfill your heart's desires. Put greater emphasis on home improvements that lower your overhead, not going into debt unnecessarily. Say no to temptation; overreacting and indulgent behavior will be your downfall. ★★

CAPRICORN (Dec. 22-Jan. 19): Be careful what you share and sign up for and who you trust to look out for your interests. Someone will misinterpret your intentions or offer false hope if you don't press for facts and figures. Put your energy into running the show instead of sitting on the sidelines. When opportunity knocks – and it will – open the door. ★★

AQUARIUS (Jan. 20-Feb. 18): Apply your energy and attention to how you earn and handle your finances. A change at home or to your lifestyle that encourages you to start a home business or sell off items you no longer use will boost your morale and give you hope that you can budget for something special you want to do or acquire. ★★

PISCES (Feb. 19-March 20): Head in a creative direction. Whether it's something you enjoy doing or that intrigues you, the outcome will be enlightening, and the people you encounter will have an impact on how much you achieve and what you do next. Don't hesitate to hone your skills; practice makes perfect, and perfection attracts those as enthusiastic as you. ★★★★★
