

HOROSCOPE by EUGENIA LAST

Friday March 20th, 2026

CELEBRITIES BORN ON THIS DAY: Ruby Rose, 40; Holly Hunter, 68; Spike Lee, 69; Amy Aquino, 69.

Happy Birthday: Simplify your life. Refuse to let anyone talk you into something too expensive, time-consuming or tedious. Choose events and activities that help you explore possibilities, expand your awareness and encourage you to put more time and effort into self-improvement, taking care of unfinished business and making sure those you encounter understand your reasoning and goals. Lead the way, and don't worry about those who don't follow. Your numbers are 8, 14, 22, 29, 35, 43, 46.

ARIES (March 21-April 19): Make a wish and follow through. How you respond to others will determine who's on your team and ready to play full throttle. Letting your ego swell will result in emotional setbacks. Love wholeheartedly, speak honestly and follow through on the promises you make, and everything will fall into place.

Make romance a priority. ★★★

TAURUS (April 20-May 20): A different routine will spark your imagination and encourage you to try something new. Opportunity will surface if you converse with forward-thinking people with a plan and a hope for a better future. Participation is the name of the game. Stand up and be counted, and your contributions will make you an integral part of what unfolds. ★★★

GEMINI (May 21-June 20): Observe, focus and determine where your efforts will have the best impact before voicing your opinion. Act secretly, hone your plans, prepare with precision and launch your objective with a powerful, no-nonsense gesture that resonates with success. Keep your allies in the loop and your adversaries in sight, but unaware. Avoid excessive acts when simplicity fetches better results. ★★★

CANCER (June 21-July 22): Step aside and watch. It's best not to participate in aggressive action. Your best results will come from well-thought-out plans and conversations with those who can help you turn your words into reality. Discipline and ingenuity will pave the way to greater rewards. Helping those who won't help themselves will backfire. Choose intelligence over brute force. ★★

LEO (July 23-Aug. 22): Read between the lines, get the lowdown and make choices according to facts and figures. Pour your energy into learning and considering every angle before moving forward with your plans. Make your presence and wisdom felt by those you encounter, and the support you require will follow. Social and networking events will enhance your life. Romance is favored. ★★★★★

VIRGO (Aug. 23-Sept. 22): Professions, people and places that offer diversity and enrich your soul will entice you. Participating in something meaningful will encourage

personal and financial growth if you use your skills to help others. A closer look at global struggles will encourage physical action. Take the high road, and make a difference.

A collective move will far exceed a solo act. ★★★

LIBRA (Sept. 23-Oct. 22): Put domestic plans in motion. Whether you accommodate your personal needs or expand your options to raise your income or lifestyle, the outcome will favor you. Nurture relationships, build a strong bond with those you share money, emotions and pastimes with, and enrich your life while making memories. Personal gain, love and romance are in the stars. ★★★

SCORPIO (Oct. 23-Nov. 21): Communication is the best route forward. Live and learn from experience and interacting with others, and you will instinctively know how to handle the people and situations you encounter. Pour your energy into creating a space to meet your needs. Whether it's a workspace, a relaxation area or a mini gym, the offshoot will be a wiser, healthier self. ★★★

SAGITTARIUS (Nov. 22-Dec. 21): Less talk and more action will lead to positive change. It's how you treat those you live with or near that will make your life more difficult or easygoing. A creative skill you possess is worth more than you realize. Explore and expand your talents, and experience the art of turning something you enjoy into a masterpiece. ★★★★★

CAPRICORN (Dec. 22-Jan. 19): Appreciate the little joys in life. Refuse to let negativity overrule what's worth being grateful for. Choose to allow a positive attitude to lead the way, and you'll discover the rewards that come with empathy, kindness and a generous heart. Don't drown your sorrows with indulgence; minimize what ails you with gratitude and clear-cut action. ★★

AQUARIUS (Jan. 20-Feb. 18): Push your agenda forward with enthusiasm, and light a path for others to follow. A financial gain is within reach, but greed, impatience and excessive behavior will curb your results if you let temptation set in and poor choices evolve. Express your thoughts and plans with passion, and listen to those with experience before making a move. ★★★

PISCES (Feb. 19-March 20): Keep the momentum flowing. Set an example using your intelligence, connections and physical actions. Standing up for your beliefs will help you gain respect and decipher who is a good fit for your plans. Actions speak louder than words, and following through wholeheartedly will make a difference in the outcome. Trust your instincts, and forge ahead with courage. ★★★
