**Happy Birthday:** Look deep within for answers, and you'll gain insight into your purpose and how best to reach your expectations. Life is about balance, equality, give-and-take, and being happy with yourself and your surroundings. Be open and questioning to ensure you don't misinterpret situations or mislead others. Focus on abundance, dedication and loyalty, and you'll discover the best way to turn your thoughts into something worthwhile. Your numbers are 2, 13, 19, 28, 34, 38, 44.

**ARIES** (March 21-April 19): You can't put a price on learning, but you can learn by doing something repeatedly. Set your sights on what you enjoy doing and how you can utilize your skills to bring in extra cash. What you discover through asking questions, observation, and trial and error will help you hone and market your skills.

★★★

**TAURUS** (April 20-May 20): Don't hold back; work quietly behind the scenes until you complete your mission. An unexpected but positive change in a personal issue or partnership will occur if you are open about your intentions. Push to tie up loose ends so you can start to enjoy the festive season. Keep tabs on money spent and owed. ★★★

**GEMINI** (May 21-June 20): A change of plans will be costly if you don't act fast. Keep tabs on what everyone around you is doing and paying for before you promise to participate in something you know little about. Discipline will be necessary when shopping for unnecessary items or gifts. Set a budget that offers peace of mind, not debt stress. ★★★

**CANCER** (June 21-July 22): Keep your emotions out of any financial decisions you make. You can't buy love, but you can use kindness and hands-on help to draw others into your circle. Social or networking events will allow you to share your skills and thoughts with someone important. A confident, polished presentation will open doors. ★★★★★

**LEO** (July 23-Aug. 22): Keep your plans to yourself. Letting your emotions take over will lead to trouble. Focus on how you look, feel and present yourself to your associates. Be observant of the changes others make, and consider how to compensate to ensure you make gains, not losses. Choose health over indulgent temptations and peace over chaos. ★★

**VIRGO** (Aug. 23-Sept. 22): A change of scenery will adjust your perspective. Don't let what others do alarm you or disrupt your plans. Choose to head in a direction

that offers an agenda to follow, and you will achieve what you aspire to do. Let positive life choices dictate your future, and you will head into next year with a smile on your face. ★★★★★

**LIBRA** (Sept. 23-Oct. 22): Talks will give you the lowdown regarding any change or gamble you consider. Be aware of timelines and year-end deadlines. Staying on top of sensitive situations will help you avoid delays or lost opportunities. Speak up, follow through and enjoy the ride. Discipline and diligence are your best friends

when you want to make things happen. ★★★

**SCORPIO** (Oct. 23-Nov. 21): Go easy on sentimental values and situations that arise at a personal level. Be ready to back away from anyone trying to get something for nothing from you. The hype you encounter will be far less than anticipated, leaving you to deal with the fallout someone dumps in your lap. When in doubt, say no. ★★★★★

**SAGITTARIUS** (Nov. 22-Dec. 21): Direct your energy wisely. How you use your strengths and skills will be a testament to who you are and what you can do. Focus, dedication and timing will play a role in what you achieve. An innovative mindset will help you carry out your plans discreetly. Participate, contribute and map out the most advantageous path forward. ★★★

**CAPRICORN** (Dec. 22-Jan. 19): Put yourself in the driver's seat and head in a direction that satisfies your needs. Your insight will capture attention, and your ability to turn something unique into something functional and profitable will open doors. Network, socialize and share what inspires you with forward-thinking people. Someone you meet will influence your next move.

Partnerships look promising. ★★★★★

**AQUARIUS** (Jan. 20-Feb. 18): A change will spark your imagination and point you in a creative direction that influences not only you but also those you encounter. Put thoughts and plans on paper, and consider how to take advantage of any subsidies or offers that can be advantageous if initiated before the year comes to an end. ★★

**PISCES** (Feb. 19-March 20): A commitment and personal lifestyle adjustments require attention. You can count on your heart and emotions to kick in and reflect what's best for you. Travel and communication are favored, and the response you receive will offer guarantees and confirm your next move. Embrace change, and opportunity will unfold, sealing the deal with a celebration.
