**Tuesday January 6th, 2026**

**CELEBRITIES BORN ON THIS DAY:** Kate McKinnon, 42; Julie Chen, 56; Gabrielle Reece, 56; Rowan Atkinson, 71.

**Happy Birthday:** Emotional spontaneity will cost you this year. Think twice before you make a move. Keep your finances in order and live within your means. Focus on self-improvement and nurturing meaningful relationships. Fair assessments, equal rights and discipline will help you maintain a healthy and happy lifestyle and relationships. Diversity and innovative ideas will help you reach your aspirations. Practice makes perfect; trust your instincts. Your numbers are 7, 12, 22, 26, 33, 35, 48.

**ARIES** (March 21-April 19): Authenticity will help you bring about much-needed change. Invest more time, money and patience in self-improvement, paying down debt and striving to reach your life goals. An opportunity is within reach, but it's up to you to set things ablaze. Stop talking and start doing. Don't let someone step in and take over. Finish what you start. ★★★

**TAURUS** (April 20-May 20): Keep up with technology and the latest upgrades in your field of service. Whether you are pursuing knowledge, working hard to earn a living or are retired, it's important not to lose sight of the advancements happening around you. Be inquisitive, stay in touch and be the glue in your circle of friends and family. ★★★★

**GEMINI** (May 21-June 20): You may crave change, but before initiating a bold move, consider the consequences. Emotions will lead you down the wrong path, offering less than you anticipate with little recourse. Take the road to greater financial, emotional and long-term security, and you will discover alternative options that provide peace of mind. Concentrate on health and wealth management. ★★

**CANCER** (June 21-July 22): Take the plunge and adjust whatever isn't living up to your expectations. Set standards that make you feel proud and can help you reach your target, no matter what that might be. Procrastinating will lead to depression, not to mention criticism. Refuse to let opportunities pass you by when a little effort is your ticket to success. ★★★★

**LEO** (July 23-Aug. 22): Be a leader, and put your energy and effort into something that will benefit you. Refuse to get wrapped up in someone else's dreams or to be talked into something you don't want or need. Broaden your awareness, interests and skills, and choose to do things that motivate you to look, do and be your best. ★★★

**VIRGO** (Aug. 23-Sept. 22): Step up and make a dif-

ference. Your insight and ability to find solutions will give you the edge you need in competitive situations. Invest more time in events that offer a platform to push your values, skills and agenda to those who can bankroll or help you achieve your goal. Someone you encounter will pique your interest. ★★★

**LIBRA** (Sept. 23-Oct. 22): Take a moment to regroup. Consider what's doable and what isn't. Keep a close watch, note what others are doing and put your energy where it matters most. Consider what you need to know or learn in order to do your best job. Efficiency, along with durability, will ensure you finish what you start on time and without flaws. ★★★

**SCORPIO** (Oct. 23-Nov. 21): A level head and an open mind will help you navigate your way through sticky situations. Use intelligence, facts and proper protocol to avoid stepping out of line or letting your emotions spill over where they don't belong. Time and money are essential, and wasting either will put you in a precarious position. ★★

**SAGITTARIUS** (Nov. 22-Dec. 21): Buyer beware. Trust yourself, not what others tell you. Say no to those offering the impossible or making empty promises. Put more onus on reading, researching and redesigning how you want to live your life. Taking on a minimalist lifestyle will ease your mind and give you more time to do what you enjoy most. ★★★★

**CAPRICORN** (Dec. 22-Jan. 19): Take pride in what you do. Sticking to the basics and a set budget are necessary if you want to get ahead. Challenge yourself first before questioning others. Go out of your way to discover obscure alternatives that can save you time and money. It's up to you to create opportunity. Romance looks promising. ★★

**AQUARIUS** (Jan. 20-Feb. 18): Dream on, but when it comes to enforcing change, you're best to take a wait-and-see approach. Keep tabs on meaningful relationships, and do your best to lend a hand to those who need a little help from a friend. Your gestures will buy favors when you are in need yourself. Put your energy into decluttering and simplifying your life. ★★★

**PISCES** (Feb. 19-March 20): Spontaneity can lead to trouble. Don't make promises you cannot deliver. Time is precious and needs to be put to good use if you want to take advantage of the opportunities that come your way. Participate in groups or events that allow you to promote your beliefs or skills, and something good will come of it. ★★★
