The enthusiasm you exude will encourage those you encounter to assist you in whatever you decide to pursue. Partnerships are in the stars, but caution is necessary. Take nothing for granted. Your numbers are 2, 18, 23, 32, 38, 45, 49.

ARIES (March 21-April 19): Put your imagination to work for you. Explore the possibilities, and put your talents to good use. Being social will allow you to pick the brains of people who have something to contribute to your well-being and prospects. Go to the source to skip getting the runaround. Smart questions will lead to stellar results.

Partnerships are highlighted. ★★★★★

TAURUS (April 20-May 20): Slow down, consider the consequences and refrain from sharing too much personal information. Focus on using your skills and traits to ferret out specifics regarding domestic and professional situations. You'll be misled if you aren't insistent on in-depth input from qualified individuals. Leave no stone unturned when dealing with money or health issues. ★★

GEMINI (May 21-June 20): Push for answers. Having open dialogue will be your ticket to success and new beginnings. If you explore activities and projects of interest, you'll expand your mind and insight into what's possible. Gather information, and connect with those who share your interests. A change will help you engage in having a positive impact on what concerns you most. ★★★★★

CANCER (June 21-July 22): Go over documents carefully, and make changes that protect you from being taken advantage of. Leave nothing to chance, and refuse to give anyone the right to disrupt your life. Taking in false information or not doing your due diligence will lead to mistakes. Take care of your health and financial well-being, and say no to anyone who makes unrealistic promises. ★★

LEO (July 23-Aug. 22): Let your personality shine through and your enthusiasm mesmerize those you want on your team. How you present what you want to accomplish and promote who you are will determine who wants to tag along. Opportunity is within reach if you are resourceful and plan with precision. A change of heart will lead to better choices. ★★

VIRGO (Aug. 23-Sept. 22): You'll be tempted by suggestions. Use information as a starting point to dissect and establish how you can incorporate what might work to help improve your skills and develop your plans. It's better

to work alone to avoid being overwhelmed or led astray. A premature change will set you back. Don't apologize for taking time to make a decision. ★★

LIBRA (Sept. 23-Oct. 22): Put your best foot forward and let your charm and intellect lead the way. Refuse to show disappointment or upset if someone gives you a hard time; instead, come back with kindness, consideration and enthusiasm as you proceed to follow your heart's desire. You'll slowly but surely become the Pied Piper, attracting those who have something to contribute. ★★★★★

SCORPIO (Oct. 23-Nov. 21): It's time to take a step back and reevaluate your situation. Study the pros and cons, and consider where your energy will be most effective. If you refuse to rush into something you have even the smallest reservation about, you'll spare yourself money, time and upset. Pay attention to detail. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Ride the wave, and engage in what excites you. Pay attention to where your money goes and the returns you receive. You can bring in cash if you handle your investments with insight and intelligence. Be innovative and disciplined when setting up your space to ensure you strive for the convenience necessary to complete whatever mission you pursue. ★★★★★

CAPRICORN (Dec. 22-Jan. 19): Communication with someone close to you will confuse and unnerve you. Don't let anger set in when what's necessary is having understanding and the ability to redirect your energy into something that works for you. Stop bending to other people's whims. The best results will transpire if you work toward a goal that helps you fulfill your dreams. ★★

AQUARIUS (Jan. 20-Feb. 18): Observe what outsiders have to offer. If you show interest, you'll receive double the information regarding how to avoid pitfalls and make the most out of what you want to pursue. Making a lifestyle change and visiting different destinations will encourage you to find your happy place and lead to better interactions with loved ones and those who can help you excel. ★★

PISCES (Feb. 19-March 20): Put your energy into domestic solutions and improvements. Change may not be required, but an adjustment that offers space to redesign what's important to you will lead to better results. Make investing in yourself your priority before you try to change the people and the world around you. Trust yourself before you trust someone else. ★★
