**Yesterday's Cryptoquip:** IF A SHOOTING STAR  
IN THE SKY MEASURES THREE THOUSAND  
FEET LONG, I'D SAY IT'S A KILOMETEOR.

Today's Cryptoquip Clue: S equals N

The Cryptoquip is a substitution cipher in which one letter stands for another. If you think that X equals O, it will equal O throughout the puzzle. Single letters, short words and words using an apostrophe give you clues to locating vowels. Solution is by trial and error.
