CELEBRITIES BORN ON THIS DAY: Blake Lively, 38; Billy Ray Cyrus, 64; Tim Burton, 67; Elvis Costello, 71.

Happy Birthday: Listen, observe and launch a spontaneous move to combat anything that doesn't sit right with you or your plans. Your mission is to take control and responsibility for your choices and the results. Refuse to let others fill your dance card for you. Say no to inappropriate demands to ensure you have the time to attend to your essential needs and desires. It's OK to put yourself first. Your numbers are 4, 11, 22, 26, 31, 39, 42.

ARIES (March 21-April 19): Draw on your resources for facts and solutions. A shift in how you invest and earn a living is apparent. An unexpected event will turn into a blessing in disguise. Partnerships, networking and personal gains are on the rise. Don't overreact to domestic situations; morph into fix-it mode, and put whatever is holding you back behind you. ★★★

TAURUS (April 20-May 20): Look for the good in everyone and everything. A pessimistic or stubborn approach will lead to trouble. Control situations using a positive attitude, and you'll gain support and make a difference. Life is about more than perfection or always getting your way. Establish your position, but don't force your will, and something good will unfold. ★★★

GEMINI (May 21-June 20): Set yourself up for success. Finance, network and market yourself by offering your skills and experience to those you want or need to impress. Talk the talk and walk the walk, and something good will transpire. Personal growth, domestic improvements and unique experiences will foster stronger partnerships. Explore and express your thoughts. ★★★★★

CANCER (June 21-July 22): Lead without force. Capturing the attention of those already on your team will help you build a solid foundation. A creative approach to handling money, budgeting and getting along with others will be directly linked to how well you will do. Invest more in yourself, your skills and your dreams.

Fitness and health are favored. ★★★

LEO (July 23-Aug. 22): Draw on your resources and forge ahead with confidence. You have plenty to gain if you are open to suggestions, use your creativity to expand your interests, and welcome suggestions, changes and contributions from those who want to be part of your plans. Love is favored, and meeting people who share your interests is likely. ★★★

VIRGO (Aug. 23-Sept. 22): Allocate your dollars to something that contributes to personal growth, accumulation and connecting with people who can broaden your

outlook regarding how to make your money stretch or work harder for you. A kind or romantic gesture can lead to a sense of responsibility and security, helping you put your life and prospects into perspective. ★★★

LIBRA (Sept. 23-Oct. 22): Refuse to get caught up in someone's drama. Spare yourself grief, save your reputation and maintain your position. Getting upset or angry will only make matters worse, so distance yourself and do something that brings value to your life instead of pain or regret. Focus your energy on building wealth and fostering a healthy lifestyle. ★★★

SCORPIO (Oct. 23-Nov. 21): Live, learn and experience pastimes that help you grow emotionally. Let your physical needs come front and center, and put your intellectual beliefs on the back burner to avoid an altercation with someone who doesn't feel the same as you. Everyone has a right to freedom of thought. Be the best you can be. ★★★

SAGITTARIUS (Nov. 22-Dec. 21): Tidy up loose ends first, and you'll experience an attitude shift that will enhance your day. Mix business with pleasure, network and socialize, and you'll gain insight into lifestyle options that interest you. A commitment to someone special will lead to plans that require a budget and research. Romance is in the stars. ★★★★★

CAPRICORN (Dec. 22-Jan. 19): Gauge your time and the requests others make, and refrain from taking on too much. Someone will take advantage of you or try to take ownership of something that belongs to you. Create opportunities and follow through with your plans in secret to protect yourself and what's rightfully yours. Make health a priority. ★★

AQUARIUS (Jan. 20-Feb. 18): You're on the path to growth and gain. Review your options, set a budget and be relentless in your quest to excel. Your intelligence is heightened, and your desire to succeed will give you the stamina necessary to defeat anything or anyone who gets in your way. Personal and professional improvements are within reach. ★★★★★

PISCES (Feb. 19-March 20): Expand your interests, friendships and knowledge through networking events, and you'll discover new outlets for your skills and experience. Recognize when someone is jealous or uses emotional manipulation to hold you back. Sometimes, the ones you least expect are the ones you must watch out for most. Keep your eyes open and protect your secrets. ★★★
