

# HOROSCOPE by EUGENIA LAST

## Monday September 14th, 2026

**CELEBRITIES BORN ON THIS DAY:** Lolly Adefope, 36; Robert Lincoln, 53; Kimberly Williams-Paisley, 55; Robert Herjavec, 64.

**Happy Birthday:** Act; be the one to make a difference and to lead the way. You have plenty to gain if you are kind to those less fortunate. Thinking ahead will help you initiate interest in your plans that honor bringing about positive change. Use charm, intelligence and persistence over force, and you'll overcome any challenges you face this year. Your numbers are 6, 19, 21, 27, 32, 39, 47.

**ARIES** (March 21-April 19): Choose creativity over deception. How you use your gifts will make a difference today. Focus on opportunity. Abide by the rules, and keep everyone's best interest in mind. Make a name for yourself that you can be proud of, and you will attract the success and support you crave. Pay close attention to what people say and do. ★★★

**TAURUS** (April 20-May 20): Ignore the drama, and keep your life simple, your plans doable and your relationships with associates civil. Refuse to let stubbornness put you in a defensive position when what's necessary is living up to your expectations and pleasing yourself, not trying to impress others. Choose peace over chaos, and the results will be gratifying. ★★★

**GEMINI** (May 21-June 20): Welcome change with open arms. Reflect on what no longer serves a purpose, and replace it with something meaningful. Take responsibility for your life and how you choose to live. If you use your space appropriately, it will put your mind at rest. Decisions are yours to make, so stop accommodating everyone else first. ★★★

**CANCER** (June 21-July 22): Invest more time and money in your surroundings. Put comfort and convenience at the top of your list, and build an environment that offers peace and tranquility. Easing stress and anxiety will help you function better. Set boundaries with people who make you anxious. Avoid drama and situations that put your health at risk. Relax and pamper yourself. ★★

**LEO** (July 23-Aug. 22): Push back if someone tries to manipulate you. Do what's best for you and don't look back. Living in the past or letting someone decide your fate will lower your self-esteem. Expand your mind, and use your connections and insight to help you reach your objective. Surround yourself with people who lift you up, not bring you down. ★★★★★

**VIRGO** (Aug. 23-Sept. 22): Act on behalf of those who can't. Make your words resonate with the powers that be, and choose to express your concerns with passion and strength. Distance yourself from situations that are risky, and embrace honesty, integrity and making a difference.

Choose to take care of your health and well-being using calming techniques instead of harsh behavior. ★★★★★

**LIBRA** (Sept. 23-Oct. 22): Take the road less traveled. Discover what motivates you most, then exhaust resources. A change of scenery will ignite your imagination and encourage you to explore unusual possibilities. What you discover today will encourage you to change how you deal with others. Set boundaries, tighten your circle and share only what's necessary. You can't buy love. ★★

**SCORPIO** (Oct. 23-Nov. 21): Take precautions, check facts and figures, and avoid scammers and pressure tactics. Trust your instincts; remove yourself from situations that have the potential to turn sour. Walk away from drama so you can put situations in perspective. Focus on completion, set high standards and fulfill your promises. Spend more time honing your skills and becoming the best version of yourself. ★★

**SAGITTARIUS** (Nov. 22-Dec. 21): Perfection comes at a price. Don't let hard work and discipline scare you. How you handle money, responsibilities and health issues will determine who you attract. Change is inevitable, but more importantly, what you decide to do and with whom will be what determines the outcome. Set high standards, and stand by those who do the same. ★★★

**CAPRICORN** (Dec. 22-Jan. 19): Talk less and do more. Price out your plans and get started. Turn your vision into an opportunity to pursue your dream. Display your attributes, skills and knowledge for all to see. Take the plunge and challenge yourself. What you achieve will separate you from the competition while impressing those in a position to help you advance. ★★★★★

**AQUARIUS** (Jan. 20-Feb. 18): Rethink your plans. A change may be your ticket to freedom, but consider the emotional, physical and financial cost before making a move. A professional opportunity is apparent. Put ego aside and consider how much of a learning curve is involved and what it will cost to reach your objective. Avoid financial, physical and emotional risks. ★★

**PISCES** (Feb. 19-March 20): You're in a better position than you realize. Regroup, rewind and regenerate what's always worked for you, and discard what hasn't. Recognizing your strengths and applying more time and energy to something that encourages greater stability will lead to benefits. Personal improvements are highlighted, and getting your finances and medical issues in order will be comforting. ★★★★★
