Happy Birthday: The changes you encounter will turn out better than anticipated. Move forward with an open mind and a will to turn possibilities into something spectacular. If you direct your energy into people and projects that challenge your creative imagination, you gain insight into better investments and savings plans that offer peace of mind. Start an activity that gets you moving and encourages fitness and proper eating habits. Your numbers are 5, 16, 22, 26, 31, 38, 45.

ARIES (March 21-April 19): Use your charm and intellect to convince others to follow your lead. You can make a difference if you promote interesting ways to bring about affordable changes that will help you or someone else prosper. Opportunities and partnerships look promising. It's out with the old and in with the new.

A new experience will lead to personal growth. ★★

TAURUS (April 20-May 20): Be reluctant to sign up for something for the wrong reason. Your time is precious and requires fine-tuning to achieve what you set out to do. Too much of anything will be taxing and create negativity. Attitude is everything. Pick yourself up, and concentrate on what matters to you most. Romance is on the rise. ★★

GEMINI (May 21-June 20): Alter your schedule or routine to better suit your needs. A social event will lead to conversations that encourage you to rethink one of your heart's desires. Reach out to an expert, attend a trade show or sign up for a class that expands your awareness and interests. Turn your surroundings into a creative space, and pursue your dreams. ★★★★★

CANCER (June 21-July 22): Focus more on self-improvement and less on trying to change others. Avoid arguments, drama and manipulation. Your highest return will come from self-reflection and striving to improve your lifestyle. A certain domestic or professional situation will escalate if you aren't honest with yourself and others regarding what you'll do. ★★

LEO (July 23-Aug. 22): Blow off steam physically to avoid disagreements. Don't take a risk with your health or domestic property or equipment that's unsafe or outdated. Do your research and leave nothing to chance. Cost-effective answers will surface if you talk to an expert. Changing plans or helping someone in need will offer insight into something you want to pursue. ★★★★★

VIRGO (Aug. 23-Sept. 22): Take time to consider what irks you most and do something about it. Worrying will not solve problems, but actions will. Dominate

the conversations that deal with your well-being and lifestyle. Advocate on your behalf instead of letting others make decisions for you. Avoid aggressiveness, and implement lifestyle changes that suit your budget. Make peace. ★★

LIBRA (Sept. 23-Oct. 22): Choosing to initiate change will stimulate your mind, ease stress and call forth intellectuals who challenge you mentally. Question yourself and everyone else, and what you discover will help you build a solid reputation and a position that offers the power to bring about positive alternatives. Protect your home, investments and physical well-being. ★★

SCORPIO (Oct. 23-Nov. 21): What you experience and learn will lead to a more efficient lifestyle and insight into how you can make a difference using your skills. A change of attitude will help you find unique ways to use your skills. Presenting and promoting yourself will be met with opposition. Look for a source that will share your talents for you. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Paying attention to how you live or who you live with will make life and your relationships easier. A little charm will go a long way, and a gesture of friendliness or a helping hand will open doors that offer perks. A financial gain is within reach, but the temptation to spend will leave you in debt.

CAPRICORN (Dec. 22-Jan. 19): Your voice will be heard, but if you offer something without checking your facts and getting the go-ahead from those who can hinder your plans, you'll find yourself in a precarious position. Offer only what's feasible, and take care of yourself before you make promises to help others. Make personal gain and self-improvement your top priorities. ★★

AQUARIUS (Jan. 20-Feb. 18): A change at home will help cut your overhead and ease your mind. Invest more time and money in yourself and your ability to increase your earning potential. Don't let yourself get worn down because you take on too much or make unwise promises to those trying to take advantage of you. Opportunity begins with you. ★★★★★

PISCES (Feb. 19-March 20): Put health and money matters first. Taking care of yourself and doing your best to lower your overhead will help revive your confidence. Rethink how you spend your time and money and the pursuits that will help you gain greater stability. Cancel subscriptions and unnecessary expenses. Update your appearance and online profile, and hit the reset button.
