**Tuesday September 9th, 2025**

**CELEBRITIES BORN ON THIS DAY:** Michelle Williams, 45; Eric Stonestreet, 54; Adam Sandler, 59; Hugh Grant, 65.

**Happy Birthday:** Take control and make things happen this year. If you crave change or greater security, it's up to you to put a plan on the table and promote what you want to pursue. Waiting for things to come to you will lead to disappointment, but hustling, networking and marketing your ideas, skills and perspective on how things unfold will connect you with people who can help you bring your dreams to life. Your numbers are 8, 13, 17, 24, 31, 38, 42.

**ARIES** (March 21-April 19): Use your imagination, but keep your cash in a safe place. You're more likely to buy into something overpriced or unnecessary. Your time, money and effort will flourish if directed toward your health, fitness and emotional well-being. A positive state of mind will encourage you to feel good about yourself without overspending or engaging in indulgent behavior. ★★

**TAURUS** (April 20-May 20): Home is your refuge, so don't allow anyone to annoy or distract you from what makes you happy. Establish who you want to spend time with and what you want to achieve, and you'll gain insight into how to make it happen. Your perspective on the balance between work and play can bring about positive change. ★★

**GEMINI** (May 21-June 20): Fix your surroundings to suit your needs. Reach out to those you can trust for input, expertise and hands-on assistance. The emotional impact of home improvements on you will bring you peace of mind regarding what's truly meaningful to you. Implement a schedule adjustment that fits your budget, eases stress and makes your life manageable. ★★

**CANCER** (June 21-July 22): Don't sign up for something that will exceed your budget or tax your energy or time. A reasonable attitude will help you keep things in perspective and stop anyone who is asking for too much from you. Protect yourself from scammers and those making false claims or offers that sound too good to be true. ★★

**LEO** (July 23-Aug. 22): Keep the information flowing and your finger on the pulse of what's hot and what's not. Knowing how to play fair and smart will help you navigate your way to positive change and connections. An energetic approach to whatever you do will attract interest and potential partnerships that can have a beneficial impact on the outcome. ★★

**VIRGO** (Aug. 23-Sept. 22): Expand your reach by communicating with experts and broadening your scope

and long-term plans. When one door closes, don't hesitate to open another and move forward with confidence boldly. Know your worth, and don't hesitate to take control and initiate what you want, even if it means moving forward alone. ★★

**LIBRA** (Sept. 23-Oct. 22): Focus on what's meaningful, and use your energy innovatively. Getting along with those you live or work alongside is essential if you want to bring about change and understand what motivates others. Your attention to detail will be the difference between success and failure. Know your audience and tailor your message to them. ★★

**SCORPIO** (Oct. 23-Nov. 21): Discipline will be your saving grace. Consider what's vital to achieving your goals and act accordingly. Learn as you go, expand your circle and objectives, and utilize your ability to articulate what you require from contributors to achieve your objectives. Knowing what you can do and confidently displaying your skills will attract positive feedback and support. ★★

**SAGITTARIUS** (Nov. 22-Dec. 21): A lifestyle change will give you a chance to rediscover what you want out of life. Design your future by intertwining your dreams and reality to create a plan that meets your needs. Let your emotions guide you and your physical ability carry you to your destination. Turn your aspirations into something tangible. ★★

**CAPRICORN** (Dec. 22-Jan. 19): Think before making a move. Refuse to let outside influences push you in the wrong direction. Stick to your plans and budget, and show discipline when you face temptation or pressure from those trying to take you for granted. Opportunity is within reach, but it's up to you to discover and take advantage of what's available. ★★

**AQUARIUS** (Jan. 20-Feb. 18): Review your financial situation and implement a plan that will help your money grow. Investing in home improvements that lower your overhead or making a physical move to a place that is more affordable or convenient are in your best interest. Put more time and effort into personal or professional contracts and improving your relationships. ★★

**PISCES** (Feb. 19-March 20): Keep your eye on the changes happening around you, and prepare to counter anything that may dismantle your well-being physically, emotionally or financially. Overspending or paying for someone else's mistake to make an impression will lead to a loss. Look for opportunities that expand your mind, interests and chances to advance. ★★
