Tuesday September 8th, 2026

CELEBRITIES BORN ON THIS DAY: Pink, 47; David Arquette, 55; Brooke Burke, 55; Neko Case, 56.

Happy Birthday: Pay more attention to your health and financial welfare this year. Having greater diversity in all aspects of life will offer more leverage. Don't neglect your needs to take on problems that don't belong to you. A practical approach to life and love will help you recognize when someone is trying to take advantage of you. Put your energy where it counts, and you'll secure your position, maintain your reputation and attract success. Your numbers are 2, 15, 23, 28, 31, 35, 46.

ARIES (March 21-April 19): Stop overthinking and start doing. Put yourself out there, and connect with people who share your beliefs and enthusiasm. The thoughts you share will help you piece together a plan that will make your day easier. Be sure not to put off a domestic problem that needs immediate attention. If you try something new, it will help you advance. ★★★★★

TAURUS (April 20-May 20): Patience will be necessary. Domestic problems will escalate quickly if you let your emotions take over and your imagination turn a small problem into something gigantic. Your best recourse is to clean house, take care of your personal or professional responsibilities, and update how you handle your money. Set up interviews or send out your resume. ★★

GEMINI (May 21-June 20): Think matters through, and finish what you start. Refuse to let what others do stand in your way. Be true to yourself, and let your instincts guide you forward in a positive and helpful manner. If your heart is in the right place, you'll make a difference and feel good about what you accomplish.

Personal growth is apparent. ★★★★★

CANCER (June 21-July 22): If something is bothering you, speak up. If you allow anger to set in first, you'll make a scene you'll soon regret. Having a disciplined approach and a willingness to meet in the middle will help you maintain a positive rapport and alleviate your anxiety. Overreacting will work against you; keep your dialogue simple, direct and loving. ★★★★★

LEO (July 23-Aug. 22): Set your course and don't look back. It's necessary to have proper preparation in place in order to avoid getting lost or forgetting to do something. Think big, but model your plans to suit your budget and demands. Take care of misunderstandings before they have a chance to spin out of control. Honesty wrapped in kindness is the best policy. ★★★★★

VIRGO (Aug. 23-Sept. 22): Put more thought and energy into making a difference, helping others and forming decisions that will help you reach your

professional and financial expectations. Keep anyone who might weaken your plans at a distance. You'll achieve the most if you work alone or handpick a team of like-minded people. Positive change begins with the decisions you make. ★★★★★

LIBRA (Sept. 23-Oct. 22): Relationships should be on your radar. Be aware of body language, how well you read whatever room you walk into and who you want to connect with most. Your charm will be hard to resist, but be careful what you allude to. Living up to your word will be crucial if you want to make a lasting impression.

★★★★★

SCORPIO (Oct. 23-Nov. 21): Expectations will lead to disappointment if you believe what others tell you. There's a lot of hype and little substance that comes your way today. Channel your energy into doing for yourself and those you care about most. Align yourself with people who share your concerns, and let your guidance, courage and strength lead the way. ★★

SAGITTARIUS (Nov. 22-Dec. 21): Research, then put a self-improvement plan that satisfies your soul in place. Working toward a concrete solution will help you see the light at the end of the tunnel. A chance to surpass your expectations is doable if you allow energy, willpower and charisma to lead you in a prosperous direction. Put yourself and your needs first. ★★★★★

CAPRICORN (Dec. 22-Jan. 19): Utilizing intelligence and following through with your plans will get you where you want to go. Don't let the past stand in your way or allow someone to step in and redirect your focus. Don't waste time on petty arguments or small talk when living up to the promises you make to yourself are important to your success. ★★★★★

AQUARIUS (Jan. 20-Feb. 18): Get in the groove and burrow your way forward with vengeance. Trust your instincts, and leave the past behind you. Venture down a path that enables you to grow mentally and love who you are and where you are heading. Opportunity knocks; recognize and take what's yours. Romance is in the stars. ★★★★★

PISCES (Feb. 19-March 20): When one door closes, another will open. Living both in the past and the future won't work. Pick a side and give it your all. Letting go of what isn't working for you is necessary if you want to embrace the light and find the wherewithal to reach for the stars. Trust your instincts, and march forward with confidence. ★★★★★
