Love and romance are in the stars, and a positive change to how you earn your living will be worth celebrating. ★★★★★

TAURUS (April 20-May 20): Take time to analyze and formulate what you want to do next. Don't feel obligated to participate in someone else's entertainment. GEMINI (May 21-June 20): You'll thrive under pressure and demand. Change is your middle name, and excitement is part of the game. Rise to whatever occasion presents itself and takes you front and center. The realization of what you can do will help you catapult yourself forward with courage and finesse. Self-satisfaction and romance are on the rise. ★★★

CANCER (June 21-July 22): Take better care of your health and emotional well-being. Don't rely on others or fall short when being responsible is necessary. VIRGO (Aug. 23-Sept. 22): Keep your opinions to yourself and your plans a secret if you want to accomplish what you set out to do. A change may not be in your best interest. Consider the consequences, and be prepared to

offset anything that runs amok. Recognize what others are going through before enforcing criticism or blame. Focus on self-improvement, not changing others. ★★

LIBRA (Sept. 23-Oct. 22): Look over prospects, and pursue as much as you can. Diversification is your path to success. Put laziness aside, and gear up to make the most out of every opportunity you encounter. Refuse to let petty differences or feeling overwhelmed stand between you and reaching your objective. Discipline and hard work will be more rewarding than anticipated. ★★★★★

SCORPIO (Oct. 23-Nov. 21): What you achieve today will depend on how well you distance yourself from worry, obstacles and those who take advantage of you. Pour your energy into tidying up loose ends and taking better care of your health and emotional well-being. Say no to invites that are costly or unreasonable. Overreacting to something will lead to a force play. ★★★

SAGITTARIUS (Nov. 22-Dec. 21): Take advantage of your skills, talents and experience by jumping into opportunities with two feet. How you handle matters will determine the response you receive and the connections you make. A positive change regarding how you earn your living and the lifestyle you pursue awaits you. Live in the moment and enjoy whatever comes your way. ★★★

CAPRICORN (Dec. 22-Jan. 19): Manage your time. A wrong move can cost you if you aren't careful. Protect yourself from injury or illness, and enforce discipline when temptation calls your name. Don't let hearsay lead you astray. Ask questions, take your time and look for alternatives that are better suited to your needs. Anger and revenge are wastes of time and energy. ★★★

AQUARIUS (Jan. 20-Feb. 18): Think big, but follow through with discretion. Balance will be necessary while you sort through your differences and make plans that serve you. A job search or recommendation will pay off. Update and send out your resume, but also put together a budget that will ease your stress and help you save for something you want. ★★★★★

PISCES (Feb. 19-March 20): Distance yourself from drama. Taking part in someone else's issue will set you back. Your best results will come from self-improvement and personal growth. Make self-help your priority, and participate in events that offer insight into something that interests you. Challenges will help you become the best version of yourself. Choose your allies with discretion.
