Reinhart, 30; Ben Savage, 46; Jean Smart, 75; Jacqueline Bisset, 82.

Happy Birthday: Keep your emotions in check and your eyes on what you want to achieve this year. High energy, coupled with a cause that concerns you, will help you discover your purpose and people who share your interests. Expanding your circle of friends will awaken your emotional desires. If you strive for greater personal, financial and emotional stability, you will quench your thirst for gratitude and happiness. Romance is in the stars. Your numbers are 4, 18, 20, 23, 29, 36, 43

ARIES (March 21-April 19): Believe you can, do your best and see what happens. Participate in events that offer insight into what you want to achieve. Discipline and hard work will open doors to new beginnings. Engage in conversations with experts or those heading down a similar path and see what transpires. Your relationships with associates will require boundaries to protect your interests. ★★★

TAURUS (April 20-May 20): Being balanced, having integrity and taking precautions will ease your mind and protect your reputation. Say no to over-the-top suggestions. An emotional situation can turn sour quickly if you don't protect your ideas, assets and possessions. Personal upgrades and romance are on the rise, but so is the cost of living. Sign up for what's necessary and affordable. ★★★

GEMINI (May 21-June 20): Intelligence is your strength, and your ability to come up with spectacular ideas and alternatives will buy you a seat at an influential table. Social events will be the ideal platform to promote who you are and what you can do. Don't forget to follow through with a physical demonstration of what you can do.

Romance is favored. ★★★★★

CANCER (June 21-July 22): Problems will mount if you are not forthright regarding your feelings, intentions and capabilities. Socialize, but don't make promises or suggest you can do or handle something you can't. Pay attention to how you look, and be honest regarding who you are and what you like. Offering a false impression will cost you your reputation. ★★

LEO (July 23-Aug. 22): You'll attract attention with charm, intelligence and exaggeration regarding what you can offer others. A positive change you enforce will have an impact on someone or something that concerns you. Choose to offer verbal assistance, not financial, emotional or physical. Misleading those you deal with will turn into a lesson. ★★★★★

VIRGO (Aug. 23-Sept. 22): Trace your steps to make sure you have left nothing to chance. If you minimize

and declutter your life, you'll feel the freedom that comes with less stuff and things to worry about. Expect to face some emotional anxiety when you implement change; not everyone in your circle will want to let go of what they no longer need. ★★★

LIBRA (Sept. 23-Oct. 22): Repeat until you get it right. Perfection is the goal when you meet with competition. Learn all you can before you engage in talks with someone just as intuitive and intelligent. Honesty will be necessary, along with fact-checking information and claims others make. You have plenty to gain if you stick to what you know and do best. ★★★

SCORPIO (Oct. 23-Nov. 21): Stretch your imagination, but not your budget. Keep an open mind, but don't jeopardize your health, confidence or security. Be a good listener, and you'll gain insight into opportunities and connections that can serve you well. Stay calm, and keep your thoughts and intentions to yourself. Your strength will come from making a move when no one is watching. ★★★

SAGITTARIUS (Nov. 22-Dec. 21): Home is your domain. Find a comfortable spot to iron out some of the dilemmas you face. Take a unique approach to setting an example or a schedule that will help you achieve your goals. Recognize who is trying to take advantage of you, and put an end to it before it begins. Financial gain and contracts look promising. ★★★★★

CAPRICORN (Dec. 22-Jan. 19): Keep plugging away until you are satisfied with what you achieve. It's what you do, not what you say, that matters. Someone will misinterpret your words or misrepresent you if allowed to speak for you. Choose to work alone and to fend for yourself. Emotional arguments will disrupt your plans and how you perceive others. ★★

AQUARIUS (Jan. 20-Feb. 18): Spend time going over your budget, and look for expenses you can eliminate. A change to how you handle or earn your money will make a difference. Send out resumes, and ask for references. Consider the many ways in which you can upgrade your qualifications and spruce up your appearance. Dress to impress. ★★★★★

PISCES (Feb. 19-March 20): Pay attention to money, details and how you present yourself to others. A new look will lift your spirits and attract attention. A social event will encourage you to take better care of your health and well-being. Consider joining a fitness group, or revise your lifestyle to ensure you aren't lagging. A kind gesture will lead to friendship. ★★★
