

HOROSCOPE by EUGENIA LAST

Saturday July 25th 2026

CELEBRITIES BORN ON THIS DAY: James Lafferty, 41; D.B. Woodside, 57; Matt LeBlanc, 59; Illeana Douglas, 65.

Happy Birthday: "Hurry up and wait" is how this year will unfold. Choose a positive attitude, and when something appears to be falling apart or not moving quickly enough for your liking, know enough to sit back, observe and head in a direction that shows promise. Hasty decisions will come back to haunt you. Go with the flow and zigzag your way in whatever direction offers the least amount of friction. Your numbers are 2, 16, 24, 29, 33, 44, 46.

ARIES (March 21-April 19): Do something creative. Invest time in learning about and producing something that brings you joy, such as extra cash, or pleases someone you love. A change is on the horizon, and a financial gain is within reach. Don't let anger over what someone does ruin your day or what you want to achieve. Set your sights on finishing what you start. ★★★★★

TAURUS (April 20-May 20): Leave nothing to the imagination. Figure out every angle, situation and potential loss or gain that will manifest due to your actions. Take a moment to consider how your words will affect others or a situation you face. Overreacting will set you back; observation will help you navigate your way forward with compassion. ★★

GEMINI (May 21-June 20): A change is overdue. Research, pick a path and begin your journey. Doors will open if you start conversations with people who have experience and insight into what you want to pursue. An energetic approach will increase your awareness and profile among those who can contribute to your goal. Steer clear of personal vendettas with family and friends. ★★★

CANCER (June 21-July 22): If you question everything, you will discover how to use your insight and innovation to mastermind your way to a better headspace. Attitude can change everything, so wipe the frown off your face and replace it with a smile, a kind word and a positive suggestion. A lifestyle change will help bring you closer to your dreams. ★★

LEO (July 23-Aug. 22): Sign up for an event that you feel passionate about, and do your part. With an open mind and a creative spirit, you will contribute plenty and drum up some enthusiasm from those in a position to help. A personal pick-me-up will result if you choose to have a makeover or update your look. Leave nothing to chance. ★★★★★

VIRGO (Aug. 23-Sept. 22): Keep your eye on your target. Emotions will surface if you aren't articulate regarding what you can do. Focus on money matters, investments

and debt. Joint ventures may tempt you, but you're better off moving forward alone. A falling out with someone you trust can hurt your reputation or position. You can offer suggestions, but avoid shared expenses. ★★

LIBRA (Sept. 23-Oct. 22): Do what you say and say what you do. Letting your actions speak for you will help you build a stellar reputation as well as the fundamentals for good relationships with family, friends and associates. Discipline and a healthy imagination will encourage you to think big and make things happen. Take care of your health, wealth and emotional well-being. ★★★★★

SCORPIO (Oct. 23-Nov. 21): You'll fall short if you aren't reasonable or cost-efficient or don't follow through. A kind word will make a difference to those who look up to you or need your help. Don't limit what you can do because you aren't willing to go the distance. Stand tall, give your all and see what unfolds. A romantic situation looks promising. ★★★

SAGITTARIUS (Nov. 22-Dec. 21): A change will turn into more than you bargained for. Take a step back and monitor promises, reactions and what's possible before you agree to a joint venture or investment. A positive change is within reach, but get your facts straight and ask for what you want in return before you make a commitment. Don't undersell yourself. ★★

CAPRICORN (Dec. 22-Jan. 19): Reach out, pay back, turn any wrong into a right and practice what you preach. It's never too late to take the positive path and be the one to rectify problems. Step into the spotlight and make a difference. Your words will encourage others to help you bring about change. Be part of the solution, not the problem. ★★★

AQUARIUS (Jan. 20-Feb. 18): Envision the life you want and the relationships that make you happy, and adjust your schedule to fulfill your heart's desires. Opportunity is apparent, but you must do your part. Don't sit back; participate in events, activities and functions that interest you.

Don't give up when it's time for new beginnings. ★★★★★

PISCES (Feb. 19-March 20): Rethinking your past and present will help you decide what's next. Reach out to those who can offer insight into what's available. Getting the lowdown will help you avoid any pitfalls you discover before you engage. Someone will captivate your attention, but before you trust them or make a commitment, verify facts and the person's integrity. ★★
