CELEBRITIES BORN ON THIS DAY: Adelaide

Kane, 36; Anna Kendrick, 41; Gillian Anderson, 58; Hoda Kotb, 62.

Happy Birthday: Make things happen, and embark on what moves you most. Whether it's in your personal life, a learning quest or a relationship, don't limit your chance to lead the way. Become the master of your destiny, write the script and make moves that position you to receive positive results. Personal gains and growth will get you where you want to go. Indulge in self-awareness, intent and fruition. Your numbers are 7, 15, 22, 29, 31, 37, 48.

ARIES (March 21-April 19): Problems will grow if you don't pay attention and forget to nurture what and who matters to you. Use your intuition to assess and tame your fury. A change to how you earn your living or use your money will make a difference to what you pursue next. Choose whatever makes you feel good about yourself and what you do. ★★

TAURUS (April 20-May 20): Easy does it. If you take on too much, there will be a price to pay. Focus more on yourself and less on what others are doing. Being less critical and putting more onus on yourself will help you overcome any flaws you've developed over the years. It's important to address your issues instead of trying to change others. ★★★★★

GEMINI (May 21-June 20): Change is in your DNA. You'll thrive if you engage in conversations and debates or pursue whatever grabs your attention. The outcome of your vast interests will help you find your purpose and encourage you to take the path that fascinates you most. Social events and love are highlighted. Get out and fraternize; the returns will exceed your expectations. ★★★

CANCER (June 21-July 22): Emotional energy is mounting, and personal issues are better off being addressed sooner rather than later. Get more than one opinion, and surround yourself with people you trust. Don't miss out on something you can benefit from because you don't have the time or wherewithal to be resourceful. Think outside the box by using experience and memory to avoid emotional mishaps. ★★

LEO (July 23-Aug. 22): Learn as you go, ask questions and try something new and exciting. Chance encounters will lead to a host of emotions that change your perspective regarding how and what you pursue next. A lifestyle change will intrigue you and lead to information that taps into your creative imagination. Romance is highlighted, and an adventure will captivate you. ★★

VIRGO (Aug. 23-Sept. 22): Sit tight, observe and consider your options. Helping others is admirable, but sometimes you need to pay more attention to your needs.

If you give someone the opportunity, they will misjudge the time and effort it takes to make their life better. A change of heart will be necessary if someone puts you in a vulnerable position. ★★★★★

LIBRA (Sept. 23-Oct. 22): Pay attention to your needs. Nurture, pamper and refuse to let emotional situations consume you. Put your energy into learning, personal growth or a new project that motivates you to engage in what fascinates you most. Size up situations, and discard what's no longer in your best interest. Gravitate toward inner peace and love. ★★

SCORPIO (Oct. 23-Nov. 21): Read the room before you trust someone's hype. Overindulgence and circumstances that can give someone control of a situation you find yourself in will require attention and discipline. Know when to say no and to distance yourself from bad positions and people playing games with your emotions. Protect your heart, money and possessions. ★★★★★

SAGITTARIUS (Nov. 22-Dec. 21): You can make headway if you pay attention to investment opportunities and look at your options regarding professional opportunities and updating your skills and resume. A commitment you make to a healthier lifestyle or loved ones will encourage a positive change and the chance to improve how you look and feel. Love and romance are in the stars. ★★★

CAPRICORN (Dec. 22-Jan. 19): Take time to process information and to consider how best to respond. A well-thought-out plan can save you from having to revisit a sensitive issue. Put your energy into physical activities that allow you to challenge yourself. What you learn will offer insight into following through with your plans without repercussions. ★★

AQUARIUS (Jan. 20-Feb. 18): If you keep the momentum flowing, the rewards will help you pay the bills. A lifestyle change that allows you to use your physical skills as well as your intelligence will lead to a long-term investment that offers greater stability and financial security. A partnership that helps you handle stressful situations looks promising. Love and friendship are in the stars. ★★

PISCES (Feb. 19-March 20): Uncertainty will surface due to misinformation. Don't offer personal information or sign up for subscriptions or something you don't really want or need. Deal with an emotional matter before it has a chance to grow into something much more difficult to handle. Take care of issues concerning institutions or situations you want to distance yourself from. ★★★★★
