Holly Jewkes
Supervisor, Bend-Fort Rock Ranger District
63095 Deschutes Market Road
Bend, OR 97701

Dear Ms. Jewkes:

We are current, longtime residents of the Deschutes National Forest who are about to be displaced from our homes and lose everything we have within 40 days if the Cabin Butte project goes forward.

We both have disabilities and have filed disability discrimination complaints over what is about to happen to us.

We are also aware that the environmental documents the Deschutes National Forest published two years ago failed to take into account the impact on the human environment, most importantly us.

Attached is a Request to Reopen document seeking corrective action, which includes delaying and/or cancelling the Cabin Butte project.

Given our circumstances, we have been recently harassed continuously by Forest Service law enforcement officers. We ask that you initiate the process to reopen and redo these environmental documents and not harass us further while this process is ongoing.

Sincerely,
