

There's a lot of misinformation and conflicting information on the Internet. I'm sending this email as a citizen, but I also serve as a City counselor in Redmond, so I do recognize that the trail of information can be a little bit muddled when the media gets involved. Again though, this email is sent in my personal life capacity and has no relation to the city. Conflicting information is causing quite a bit of anxiety for taxpayers/voters. My hope is that you have a stock email with answers with an update to the following questions that you can forward along?

These are some questions floating around that I can't find the answers.

1. Has the Vander Kamp investigation concluded? 2. If so, is it true that Vander Kamp has been exonerated of any wrongdoing?
3. If Vander Kamp is found of wrongdoing, could this disqualify him from holding the office of Deschutes County Sheriff?

In honor of transparency, I look forward to your response.

Thank you,
