

Wisconsin's must-read for fall.

Choosing the right individual or family health plan can seem overwhelming. That's why you need someone on your side you can trust, like Medica. We're a different kind of health plan, working hard to make health care easier to understand. We're listening to our members and offering plan options and services that fit the unique needs of families like yours.

Don't forget: The Open Enrollment period is shorter this year than in years past. You must enroll between November 1 and December 15, 2017.
