What makes your business uniquely La Crosse?

The scope of our work is as broad as the region we serve. We are truly water experts – from homes to farms to restaurants, health care, manufacturing and everything in between. We see a lot of unique applications within our 1900 square mile territory.

How do your services make you unique?

Our La Crosse team is highly experienced – together, our 10 employees bring a combined 199 years of Culligan service to solving water problems in this area. All that knowledge is a great asset to our customers.

We also stand by our 100% satisfaction guarantee, which means if you are dissatisfied with your Culligan product for any reason within 30 days of your purchase, we will remove it and refund your purchase price.

What is your most unique offering?

We offer a free in-home water analysis for people concerned about hardness, iron or nitrate content. We also offer the convenience of delivery – we will bring salt, bottled water, or water treatment chemicals right to you, saving your back and your time for better things.
