

EXPECT 8,100 MEN 45-64 TO REGISTER TOMORROW

BLACK HAWK HAS 28 CENTERS SET TO HANDLE TASK

Draft Boards Will Send Out Registrars for Sick; 7 a. m. to 9 p. m.

Black Hawk county's three draft boards are expecting a total registration of more than 8,100 tomorrow, in most cases the same as those arranged for the Feb. 16 registration.

National estimates are that the number registering will be approximately 50 per cent greater than in the Feb. 16 registration of men 20-44, when the total in the county was 5,441, including 1,819 for the Waterloo east board; 1,820 for the Waterloo west, and 1,812 for the Cedar Falls board.

A 50 per cent increase in that total would make it 8,161.

One change in Waterloo. There will be 28 registration centers throughout the county tomorrow, in most cases the same as those arranged for the Feb. 16 registration. They will be open from 7 a. m. to 9 p. m.

There will be no change in centers for the Waterloo west and Cedar Falls boards, but one change has been made in those for the Waterloo east board.

Persons living in the Third and Second precincts of the Third ward in Waterloo will register at the Young Women's Christian association, Park avenue and Lafayette street, instead of at the International Harvester company building, which was used Feb. 16.

Transients at Board Office. Transients may register tomorrow at the offices of any of the three draft boards. The Waterloo draft offices are in the postoffice building, east in room 203 and west in room 236, and the Cedar Falls office is in the Cedar Falls armory, 316 Washington street.

Men who are obligated to register Monday but are unable to get to a center because of illness or other physical disability should call their draft boards or have someone call the boards for them. Registrars will be sent to register these persons.

Who Must Register. The following men must register: Those who attained their forty-fifth birthday on or before Feb. 16, 1942, and who will not have attained their sixty-fifth birthday tomorrow.

Registering one man will take about 12 minutes, draft board clerks estimate. Each registrant will be asked the following questions: Name. Place of residence, including street and number. Mailing address. Telephone number. Age in years. Place of birth. Name and address of person who will always know your address. Employer's name and address. Place of employment or business.

The registrant will place the answers to these questions in blanks on the front side of the registration card, which is buff colored. On the reverse side the registrant will note the registrant's: Race. Height (approximate). Weight (approximate). Color of eyes. Color of hair. Complexion.

Other obvious physical characteristics that will aid in the registrant's identification will be noted also. Both registrant and registrant will sign the registration card after it is filled out. To relieve congestion at the registration centers, men are urged to register during the day as much as possible rather than in the morning and evening. Employers, too, are requested to let their employees in the 45-64 age bracket have time off during the day to register. This will make the work of the draft boards and registrars easier, it was pointed out.
