

National Nursing Home Week 2016 May 8-14, 2016

Nursing facilities are sharing, welcoming communities that encourage everyone to interact with the wonderful people they care for. Each year, beginning on Mother's Day, nursing facilities nationwide take pride in publicly honoring the unshakable spirit of residents and recognizing the amazing staff who face each day with a sense of purpose and compassion.

During National Nursing Home Week, nursing facilities will come together celebrating this year's theme, "It's a Small World, with a Big Heart." This theme celebrates the bond formed between staff, volunteers, therapists, doctors and the residents they serve, all in the spirit of family.
