

CLEANING SEWER LINES

The City of Vinton Water Department Will Be Cleaning Sewer Lines This Fall

Water may be blown back into houses while the sewers are being cleaned.
We suggest you close your toilet lids to help with any mess that may occur.
If you have a strong odor in your house after they have been cleaned, please check your
drains in the basements and all of your sinks.

**We are sorry for any inconvenience this may cause but this is to help
prevent future sewer backups.**

ANY QUESTIONS PLEASE CALL 472-3437.
