Did you know?

Drunk and drug-impaired driving is illegal in all 50 states and across Canada. Unfortunately, instances of driving under the influence of a substance seem to increase during the holiday season. According to recent data from the National Highway Traffic Safety Administration, 29.8 percent of all fatal car accidents between 2018 and 2022 (the most recent for data) involved a drunk driver. Fatal crashes involving drunk driving are about 27 percent more common during holiday periods than other times of the year. Nighttime driving during the month of December tends to be particularly dangerous. Almost half of drivers involved in fatal crashes between the hours of midnight and 2:59 a.m. were intoxicated, according to data from December 2023. Thirty percent of drivers involved in fatal traffic crashes between the hours of 6 p.m. and 5:59 a.m. were intoxicated. The NHTSA reminds people that impaired driving is deadly. Drive Sober or Get Pulled Over and If You Feel Different, You Drive Different - Drive High Get a DUI are NHTSA campaigns instituted during the holiday season that are followed up with increased enforcement by police. Holiday celebrants should always plan for a sober ride home from parties or holiday dinners if they plan to drink or consume other substances that can cause impairment.

29.8%
of all fatal car
accidents between
2018 and 2022
(the most recent year for data)

Why you need dental insurance in retirement.

Many Americans are fortunate to have dental coverage for their entire working life, through employer-provided benefits. When those benefits end with retirement, paying dental bills out-of-pocket can come as a shock, leading people to put off or even go without care.

Simply put – without dental insurance, there may be an important gap in your healthcare coverage.

When you're comparing plans ...

- ▶ Look for coverage that helps pay for major services. Some plans may limit the number of procedures – or pay for preventive care only.
- ▶ Look for coverage with no deductibles. Some plans may require you to pay hundreds out of pocket before benefits are paid.
- ▶ Shop for coverage with no annual maximum on cash benefits. Some plans have annual maximums of \$1,000.

Medicare doesn't pay for dental care.¹

That's right. As good as Medicare is, it was never meant to cover everything. That means if you want protection, you need to purchase individual insurance.

Early detection can prevent small problems from becoming expensive ones.

The best way to prevent large dental bills is preventive care. The American Dental Association recommends checkups twice a year.

Previous dental work can wear out.

Even if you've had quality dental work in the past, you shouldn't take your dental health for granted. In fact, your odds of having a dental problem only go up as you age.²

Treatment is expensive — especially the services people over 50 often need.

Consider these national average costs of treatment ... \$222 for a checkup ... \$190 for a filling ... \$1,213 for a crown.³ Unexpected bills like this can be a real burden, especially if you're on a fixed income.
