The improvement for which bids will be received is described below:

The Cascade Irrigation District (CID) Brick Road Tunnel Improvements will repair an aging concrete tunnel on the canal and replace a pipe-arch culvert with a bottomless box culvert for a private road crossing the CID canal. The work will include dewatering the tunnel, cleaning the tunnel, repairing the concrete in the tunnel, lining the tunnel with spray applied liner, removing an existing pipe-arch culvert, installing a bottomless box culvert, repairing the existing private road, and completing improvements to an existing canal access road. The District's cost estimate for the project is \$1,660,000.

This project is considered an environmental conservation project. This project is funded by groups or agencies whose focus is conservation of natural resources and efforts of the Contractor on this project shall be mindful of these interests. Quality and timely completion of the finished project is of high value to the District and the funding groups and agencies, and time is of the essence to this agreement. The Contractor is expected to make every effort possible to meet the requirements of the permits previously obtained, or work with the District on necessary modifications. Failure to do so can be grounds for termination of this contract.

DATED this 18th Day of May 2026 at Ellensburg, Washington.

Anna Lael

District Manager, Kittitas County Conservation District
