Queens of Spades president and chair of the Garden of the Month program.

The policies and procedures for Garden of the Month have been changed for the Year 2015. Gardens for the award will be selected on the basis of those that are submitted from the nomination form found on the Daily Record website. Nominations may be submitted at any time. Members of the Queens of Spades Garden Club will canvass and visit gardens in Upper County one month and Lower County the following month beginning in April and ending in October. This will result in three awards for Upper County and three for Lower County. Gardens nominated and not chosen one month may be carried over for consideration another month.
