## ALLEVIATE HAND AND FOOT PAIN & SUFFERING

Are you experiencing Burning, shooting, stabbing pain...Numbness, tingling, shocking sensations of your hands or feet? It may be due to Peripheral Neuropathy.

Symptoms start small and get worse and worse. Often, people find themselves taking more and more prescription medications to try to alleviate the pain. Over time these medications lose their effectiveness, require larger dosing, and often cause damage to multiple systems of the body.

While there is no cure, there is relief. Come and experience a state of the art, medically based, non-narcotic treatment similar to the treatments received by pro-athletes. Administered by an experienced nurse practitioner in a warm and comforting environment.
