## BATTERY METALS

TSXV: NILI | OTCQX: NILIF | FRA: DJ5

## SECURING AMERICA'S SUPPLY OF LITHIUM

**Highest Grade Lithium Clay Maiden Resource Estimate in the USA:** 4.7Mt LCE grading 2,839 ppm Li at a 1,250ppm cutoff. Substantial potential for growth: Highest grades and the bulk of resource is at or close to surface and only covers a portion of the known footprint of the property.

**Proven Lithium Team:** The Company's management team boasts a strong track record of delivering significant shareholder value. The Company is led by a board and management team with seasoned lithium experts, who previously played pivotal roles in the success of Millennial Lithium (sold to Lithium Americas (LAC) for US\$491 million).

**Nevada is fast becoming the epicenter of America's lithium battery industry:** Featuring the \$4 billion Thacker Pass lithium mine-in-the-making, Tesla's massive giga-factory and Nevada Governor Joe Lombardo vision to "Electrify Nevada" to advance electric vehicle battery production.
