Miracle-Ear®

We also have custom fit hearing protection in a wide range of colors and finishes to meet your unique personal traits.

$219

PER PAIR FOR NON-DIGITAL CUSTOM HEARING PROTECTION

DIGITAL Custom-Fit is IPIL Rated*
Each product in the DefendEar Digital product line uses CEM® electronic modules for impulse noise suppression and ambient noise amplification. Not recommended for indoor use or as a replacement for hearing aids.**

DefendEar DIGITAL 1 NRR26
The Digital 1 provides excellent universal noise suppression, wind reduction, and ambient amplification for a variety of shooting environments.

DefendEar DIGITAL 2 NRR26
The Digital 2 includes two modes allowing for flexible noise suppression. The Game Mode is optimized for intermittent shots and the Clay Mode is optimized for continued shots.

DefendEar DIGITAL Hunter NRR26
The Digital Hunter Normal Mode provides the most amplification of low volume sounds for detecting game movement. The Wind Mode reduces wind noise typical in the open range and in hunting stands.

DIGITAL PROTECTION STARTING AT $1295

THE DEFENDEAR DIGITAL 1 provides excellent all-around noise suppression and ambient amplification for a variety of shooting environments.

THE DEFENDEAR DIGITAL 2 offers two modes for either clay or game shooting scenarios. Game Mode is optimized for suppressing intermittent shots while amplifying ambient sound. Clay mode is optimized for suppressing continued shots, allowing more flexible noise suppression while still amplifying ambient sounds.

THE DEFENDEAR HUNTER boosts low-level sounds for detecting game moving through leaves and under-growth while providing impulse suppression tailored for continuous shots from larger caliber firearms. The DefendEar Hunter has a second mode to reduce wind noise typical in the open range and hunting stands.
