WHAT IS IT?

Lost or forgotten money and other financial assets, including things like paychecks, stocks, bank accounts, utility deposits, insurance proceeds, gift certificates and more.

WHERE IS IT?

Generally, after three years, if an owner cannot be located by the business obligated to make the payment, the Nevada Treasury takes the assets into custody and safeguards them in perpetuity. Owners, and the legal heir(s) of deceased owners, never lose the ability to claim the property.
