

Powering Progress in Mining When and Where you Need It

Clean. Reliable. Cost-Effective. Liquefied Natural Gas (LNG) Fueled Power from Stabilis

Stabilis Solutions delivers LNG fueled Distributed Power Solutions to some of the most remote and rugged mining sites in North America. Whether you lack energy infrastructure or are using other high cost fuels, our virtual pipeline offers a cleaner, scalable, and more economical solution without compromising on reliability.

We Provide:

Tailored LNG solutions to power your site and fuel mine haul vehicles

Rapidly deployable turnkey LNG solutions

30+ supply points across North America

24/7 technical support

Bringing Energy Where You Need It™

OUR MISSION

Leading provider of turnkey clean energy solutions for many of the world's most recognized, high-performance brands.
