

SEEPEx.

An Ingersoll Rand Business

CUT DOWN COSTS BELOW THE SURFACE

Easy Maintenance

Drive Joint Access (DJA)

Rotor Joint Access (RJA)

SEEPEx PROGRESSIVE CAVITY PUMPS DELIVER TOP PERFORMANCE IN MINING OPERATIONS.

SEEPEx PC pumps are valued for their durability and minimal maintenance, helping lower operational costs. Their adaptable design supports various stages of mining, including critical functions like mine dewatering.

HIGH-PRESSURE SOLUTIONS FOR MINE DEWATERING:

Effective mine dewatering relies on the right pump to manage groundwater and drilling waste. With high-pressure capabilities up to 720psi, SEEPEx solids-handling pumps cut costs and support sustainable water control underground.

WITH SEEPEx AS YOUR TRUSTED PARTNER, YOU BENEFIT FROM:

- Lower Lifecycle Costs
- Easy and Quick Maintenance
- Energy and Water Efficiency
- Reliability in Harsh Conditions
