

OKLAHOMA COVID-19 WEEKLY REPORT

Weekly Epidemiology and Surveillance Report
March 28 – April 3, 2021

PURPOSE To provide up-to-date weekly epidemiological data on COVID-19 in Oklahoma.

SNAPSHOT

	March 28 – April 3	Change ¹	Total
Cases	2,170	-9.7%	440,023
Recovered cases ²	1,042	-60.9%	423,402
Deaths ³	1,716	N/A	6,669

1. Change from the week of March 21- March 27, 2021.

2. Currently not hospitalized or deceased and 14 days after onset/report.

3. Death count reported for the week March 28-April 3 includes a large increase due to reconciliation efforts that have been undertaken to resolve the discrepancy in deaths reported in the state disease investigation system and those reported through Vital Records over the past year. Page 10 shows a graphic representation of when these deaths occurred.

CASES		DEATHS	
Persons aged 50 and over	Females	Persons aged 50 and over	Males
34%	53%	96%	56%
of <u>cases</u>	of <u>cases</u>	of <u>deaths</u>	of <u>deaths</u>
