

OKLAHOMA COVID-19 WEEKLY REPORT

Weekly Epidemiology and Surveillance Report
April 25 – May 1, 2021

PURPOSE To provide up-to-date weekly epidemiological data on COVID-19 in Oklahoma.

SNAPSHOT

	April 25 – May 1	Change ¹	Total
Cases	1,593	-2.3%	448,872
Recovered cases ²	9,591	n/a	439,686
Deaths ³	44	n/a	6,832

1. Change from the week of April 18-24, 2021.

2. Not deceased and 14 days after symptom onset/specimen collection. Please note that the definition for recovered was changed starting May 4, 2021 due to incomplete data on hospitalization which may result in an inaccurate estimation of the active cases.

3. Death count reported in past weeks included deaths identified through reconciliation efforts that undertaken to address the discrepancy in deaths reported in the state disease investigation system and those reported through Vital Records over the past year.
