WHAT TO DO IF YOU SMELL NATURAL GAS

1 Evacuate the area by foot immediately! Do not use electric switches, landline and cell phones or anything that could cause a spark. If you are outside, travel in the opposite direction of the wind and away from the leak or vapor cloud. Make sure to keep a safe distance.

2 Get to a safe location and call 911 and CenterPoint Energy at (731)-659-2111. Be sure to call CenterPoint Energy when reporting a leak rather than emailing or using the internet. Never make the assumption that someone else has already reported the leak.

3 Warn and alert your neighbors and others to stay far away from the leak. Leave any and all equipment being used in or near the area of the leak. CenterPoint Energy offers to investigate suspected natural gas leaks at no cost to you.

4 Never attempt to repair a natural gas leak yourself. Leave all repairs to a trained technician.

CenterPoint Energy's actions during an emergency:

CenterPoint Energy immediately dispatches personnel to the site to help handle the emergency and provide information to public safety officials to aid in their response. Our personnel will restrict the flow of gas as needed to protect people, property and the environment.

See more at: <https://www.centerpointenergy.com/en-us/residential/safety/natural-gas-leaks/>

This information was received on <https://www.centerpointenergy.com> and submitted by the Emergency Preparedness Committee.

Boost health with these breakfast tips

Looking to make some changes to your nutrition? Start by examining what is often referred to as the most important meal of the day; breakfast.

Here are some fast facts about breakfast from Kelly Springer, MS, RD, CDN, and president of Kelly's Choice, a collective of registered dietitians, nutritionists and educators that offers customized nutrition coaching programs for schools, workplaces, medical facilities, athletes and individuals.

♥ **Don't Skip It:** Breakfast is not only essential to weight maintenance, it can help ensure you avoid nutritional deficiencies, so don't avoid it.

"Think about bonfires. If you don't add wood to the flames, the fire will go out. Metabolism works the same way. If you don't add food as fuel to your body, your metabolism will slow down," says Springer. "To maintain a healthy diet, you need to eat regularly scheduled meals. Breakfast is particularly important because your metabolism slows during a night of sleep."

Skipping breakfast has also been proven to be linked to nutrient deficiencies, points out Springer.

"Breakfast provides essential nutrients that can't be made up for later in the day," says. "A good breakfast will

Bagels are a good source of protein, essential to a good breakfast.

provide protein, b vitamins, fiber, calcium and iron."

♥ **Include Protein:** Protein helps to maintain blood sugar levels, keeps you fuller longer and provides the building blocks for skin, hair, nails and muscle. But because protein can't be stored as protein in the body, it needs to be consumed throughout the day.

"Be sure your first meal includes protein. You don't

601 South Second St. • Richmond, TX 77469
281-342-2121

A poster for the 2019 Railfest and Hobo Walk. The top section features the text "ROSENBERG RAILROAD MUSEUM AND ROSENBERG MAIN STREET PROGRAM PRESENT" in white on a dark background. Below this, the date "Saturday, April 6" is written in a large, bold font, followed by the time "10 am - 5 pm" and the address "1921 Ave F, Historic Downtown, Rosenberg". A large, diagonal banner across the middle of the poster reads "2019 RAILFEST AND HOBO WALK" in white, bold letters. The background of the poster is dark with a red and white paisley pattern. At the bottom, there is a black box with white text: "\$8.00 General Admission, Children under 2 FREE!". Below this, it says "Tickets available at the gate or purchase online: www.rosenbergmuseum.org". At the very bottom, there is a list of activities: "Food • Music • Model Trains in Action • Trackless Train Ride • Kids Activities • Collectibles & Model Train Sale". A final line of text states "All fest activities are included with admission - drinks, food, and souvenirs are extra".

have to search hard to do so. Some of your favorite breakfast items are already a great source,” says Springer.

Did you know that a bagel at Einstein Bros. Bagels has between 9 and 17 grams of protein? This is more than or as much protein as one large egg, three slices of turkey, one cup of 2 percent milk or two tablespoons of creamy peanut butter.

♥ **Include Carbohydrates:** Many new diets encourage you to skip carbohydrates, but carbs are the number one source of energy for the body and brain food to boot. Carbohydrates convert to glucose in the body -- and our brain, one of the most demanding organs in the body, cannot function without glucose.

♥ **Streamline:** Habits are most successfully formed when they are easy to adopt. To that end, consider streamlining your breakfast by seeking out one location for your morning cup of joe as well as your protein-rich, meal, such as Einstein Bros. Bagels, which offers a full breakfast menu.

A nutritious day all starts with a balanced breakfast. To keep your body and metabolism fueled, give your breakfasts a makeover. (StatePoint)

Did you know?

Carbohydrates are seen as the enemy by many people looking to lose weight, but that reputation is ill-deserved for certain types of carbs. Carbohydrates referred to as “smart carbs” can boost energy and mood and help people, even dieters, maintain healthy weights. Smart carbs, which can be found in fruits, vegetables, minimally processed whole grain products such as brown rice and quinoa, and whole wheat bread among other foods, contain vital nutrients and fiber. The body takes longer to absorb whole grains than it does processed carbohydrates, stabilizing blood sugar and energy levels as a result. Because the body takes longer to absorb whole grains, feelings of satiety and fullness are extended. That reduces the likelihood of being hungry again shortly after eating, thereby helping people maintain healthy weights. Those who want to avoid carbohydrates should avoid products made with white flour, such as white bread, non-whole grain pastas, potato chips, and breakfast cereals with high amounts of sugar.

Communications Committee

The Communications Committee has been working with the HOA management team to enhance communication throughout the community. These dedicated individuals volunteer their time to serve Sweetgrass. After months of brainstorming and hard work, the new website went live on February 18th. There are currently six active Communications Committee members:

- ★ Don Stewart, Chairman
- ★ Barbara Grace
- ★ David Vrshek
- ★ Gene Pfalzgraf
- ★ Janis Wesp
- ★ Miche Broussard

If you have not already updated your profile information on the new website, phone numbers did not transfer over to the new www.mysweetgrass.net, please do so.

Alzheimer's and Dementia: The Patient and the Caregiver

Barbara Reynolds, R.N., L.P.C., gave a most informative speech about Alzheimer's and dementia and the effects on the patient and the caregiver at FBHRE's February meeting. Having had a husband who battled brain cancer and dementia and lost, Mrs. Reynolds proved to be the perfect person to give a first-hand account of the subject.

Although it can be genetic and caused by gene mutations, not everyone with gene mutations gets Alzheimer's.

Dementia is not a disease, but Alzheimer's is. Dementia is a term that is used to describe symptoms related to memory loss. Alzheimer's is described as a form of dementia. It is not the same as normal aging. Although it can be genetic and caused by gene mutations, not everyone with gene mutations gets Alzheimer's. The actual cause is unknown. Alzheimer's may not have a genetic component in all cases. Researchers think lifestyle and environment can also be factors. Onset is usually at age 65 or older; however, it can have early onset.

Major signs of the disease are gene mutations which cause toxic amyloid beta peptide to build up, resulting in plaques which cause Tau protein to malfunction. Multiple tiny, dense Tau protein deposits throughout the brain stick together as neurofibrillary tangles that interfere with vital processes. As brain cells deteriorate and eventually die, brain scans show brain shrinkage in some areas. There is no cure.

The hippocampus is usually the first part of the brain to be affected, so memory loss occurs. If memory loss seems abnormal, get help immediately from a doctor specializing in treatment of dementia and Alzheimer's to slow the progression of the disease.

In the early stages, social activities and give-and-take conversations help the patient. In subsequent stages, memory loss progresses to the point that the patient easily gets lost, has

difficulty learning new tasks, and forgets how to do tasks that the patient has done for years. The patient may forget to pay bills, and the result is no electricity, gas, or water.

Next, the patient suffers from visuo-perceptual difficulty and has problems identifying people and objects. Confusion, memory loss, and visuo-perceptual difficulty significantly impact fine motor skill set. Example: The patient sooner or later may forget how to use a spoon. Conversation becomes difficult, and being in a room with many people talking frustrates the patient. In this situation, escort the patient from the room.

In the end stage, childlike behavior or bizarre behavior may appear. Alzheimer's patients have been seen roaming hallways. As the brain further deteriorates, the patient becomes as emotional as a child. This stage is one of the hardest to deal with. Patients have been known to overreact to a stimulus, strike the caregiver, or suffer repeated falls. The patient withdraws from activity, becomes lethargic, and suffers from increased anxiety.

The caregiver needs relief, especially in the patient's middle to end stages. Friends may offer to help, but the caregiver might not accept the help. Friends, therefore, may have to tell the caregiver they will drop by at a certain time to allow the caregiver to take a break, relax, go grocery shopping, or run errands. When assisted living centers or nursing homes are needed, the Alzheimer's Association can help. The address is 6055 South Loop E, Houston, TX 77087. The phone number is (713) 314-1313. – *Eleanor Blain*

Social Mah Jongg

Social Mah Jongg meets every Monday from 1:00-4:00 p.m. in the Lantana. Players attain winnings for successful hands, with a total loss not to exceed \$3 per day. A player who loses the entire \$3 continues to play for free. Mah Jongg tutorials and free play are held every Wednesday from 6:00 to 9:00 p.m. in the Activity Center. No RSVP is necessary. For more information, contact Susie Stern at srstern7911@gmail.com.

Social Canasta

The "March Madness" Canasta tournament TIPPED-OFF at our Sweetgrass Social Canasta Club Quarterly Meeting on March 7th. Twenty-six teams competed for prizes and bragging rights in this double elimination bracketed tournament throughout the month of March. The Canasta Activities Committee has fun special events planned each month, and all members are invited to participate. Canasta play is held every Wednesday and Thursday at 12:15 p.m. in the Ballroom. Mark your calendars now for "High Five Game Day" on April 24th and "Crazy Coconut Canasta" on May 16th. If you are new to Sweetgrass, or just new to "Sweetgrass Canasta", consider registering for three free lessons so you can join in on the fun. Email your contact information to Sweetgrass-SocialCanasta@gmail.com to register.

Sweetgrass Singers

On Tuesday, April 30th, 2:00 p.m., Join the Sweetgrass Singers for an afternoon of story and song! We welcome the George Ranch High School Longhorn Players as they present "Journey." Through song, prose, poetry, and script they will examine how people go through their lives looking for a sense of self and a place to call home. The Singers will also perform. The Longhorn Players were set to join us in December, but had to cancel due to bad weather. The spring season is a busy competition season, and we are grateful they have been able to reschedule. Last November they received the highest possible ratings and achieved record-breaking results at the 2018 Texas State Thespian Festival. Members of the Players will be competing in the Fringe Festival this summer during the Royal Edinburgh Military Tattoo. Established in 1947, the Fringe Festival is now the largest arts festival in the world. GRHS will be presenting an original musical at the Festival. This is a wonderful opportunity to support these

young artists. The event is FREE with donations to support the GRHS Theater Arts Department.

Photography Club

The next meeting of the Sweetgrass Photography Club will be on Thursday, April 4th, 6:30 p.m. in the Learning Center. Our monthly photo challenge will be "Mardi Gras" pictures or "Pictures that are Colorful" for those that didn't make it to the Mardi Gras celebrations. Members are to submit photos by April 3rd to jims@aiomachine.com.

That's Entertainment

That's Entertainment is a club dedicated to bringing members to live performances throughout the Houston Metropolitan Area. For a small membership fee of \$10.00 a year you will have access to discounted cultural arts events and the joy of riding the bus to and from the events. No worries about driving, especially at night with door to door service. March 4th

we ventured out on the coldest day of the year to the Houston Rodeo. Old Dominion entertained us with a selection of their music and a good time was had by all! Bravo to the brave souls who huddled together to make this an enjoyable evening. On March 29th, Barbara Sims shared with us the wonderful stories of her experience working for Sun Records. It was followed up with a reception, offering a variety of appetizers, desserts, wine and punch. Elvis' music playing in the background brought us all back to the "oldies but goodies" time of our lives! On April 18th we are off to see "Crimes of the Heart". Once again the Alley Theatre is providing a lovely complementary reception of delicious finger foods and wine. A big thank you to their staff for always welcoming our club in such fine fashion! April 27th we are looking forward to visiting the Round Top Festival to experience a performance by the Split Second Piano Duo. We will start with lunch at the renowned It Must Be Heaven restaurant.

Dialogue and Learning

Do I have a book in me? The next meeting of the Dialogue and Learning Group will be on Wednesday, April 10th, 6:30 p.m. in The Learning Center. As many of us have more time and more life experience than most, are you asking yourself if you should write a book? Where do you start? How do you approach a publisher, a printer, a distributor? Join local author Elizabeth Dettling Moreno as she shares the inspiration, the ups and downs of dealing with a publisher and printer, lessons learned and ultimate rewards of publishing a book. Do you have a story to tell?

Sweetgrass Quilters

The Sweetgrass Quilters meet on the first and third Tuesdays of each month at the Lakehouse from 12:00- 4:00 p.m. Since we convene at noon, members can feel free to bring their lunches and/or snacks with them. The business part of each meeting is during the first hour leaving the remaining time for members to work on quilting projects that sometimes are provided or what they bring with them. Last month's project, a quilted accordion pouch, was a great success and members were able to complete them at the meeting. Plans include having a Block-of-the-Month, Sew Days, and displaying our quilts at the Lakehouse. Due to the success of the trip to Painted Pony n Quilts, more trips are planned. Quilters at all levels (from "I want to learn to quilt." to "I've been quilting all of my life!") are always welcome at our Sweetgrass Quilters' meetings so please invite friends and new neighbors to come with you. Our tagline is "We don't collect dues. We just have fun!"

APPLIANCE SERVICE CO.

"Quality Work Is Not Expensive, It's Priceless"

281-980-3080
SERVICE YOU CAN DEPEND ON

NO MORE PAIN

Those with chronic back pain and sciatica can now breathe a sigh of relief thanks to Dr. Larry Dees and his new FDA approved non-surgical technology.

The Lordex spinal decompression system was developed by a team of back specialists and a group of engineers. Unlike other types of treatment, spinal decompression repositions the disc and repairs the disc structure. These dramatic improvements are seen on before and after MRI studies.

Spinal decompression is a major advancement in the treatment of back pain because it is only non-surgical disc treatment proven to have lasting results says Dr. Dees.

This technology is helping thousands of patients with chronic pain who thought there was no hope, some even had prior surgery, says Dr. Dees.

Research has shown that in a clinical study, more than 86% of patients treated with spinal decompression were effectively corrected. Treatment for the patient is extremely comfortable and most patients fall asleep during their 30 minute treatment session. In many cases the pain resolves after the first few minutes of being on the machine.

Most patients I see have tried everything from medication to surgery, thanks to this technology. I am able to help patients quickly without any risks or complications, explained Dr. Dees.
