

Caymas Prepares to Open New Clubhouse, Bringing Dining, Entertainment and Wellness Together

A major new chapter in the Caymas story is about to begin. In November, the South Naples community will open the doors to its brand-new Clubhouse, adding an impressive collection of dining, entertainment, fitness, and social spaces for residents to enjoy.

The Clubhouse has been taking shape for months, and the finished spaces will reflect how residents will use them, whether that means meeting friends for dinner, watching a football game, spending an afternoon by the pool, or starting the day with a fitness class.

Perhaps most striking is the setting. Approximately 85% of the Clubhouse offers lake views, keeping the water in sight from nearly every major gathering area.

Dining will be a big part of the experience of the Clubhouse. A large, full-service restaurant will offer indoor seating along with an outdoor terrace overlooking the surrounding landscape. Outside, a resort-style tiki bar will bring a more casual option to the pool area, with outdoor dining and a relaxed atmosphere for lunch, drinks, or an afternoon with neighbors.

There will also be plenty to do beyond dining. A Community Club Room will serve as the Clubhouse's game and card room, giving residents a comfortable place for everything from a friendly card game to organized activities.

A large golf simulator adds another layer of fun. Residents will be able to practice their swing or play a round without ever leaving Caymas. But the room isn't limited to golf. The oversized screen can also be utilized for watching football and other sporting events, creating a natural gathering place on game days.

Movie nights will have a home of their own as well. Rather than a traditional theater with row seating, the Clubhouse movie theater will have a family room feel, with couches and comfortable seating that creates a more relaxed experience.

A detached portion of the Clubhouse has been dedicated to fitness and wellness, creating its own destination within the larger amenity complex.

The fitness center will include a fully equipped gym and a large studio with the flexibility to accommodate a variety of group fitness classes. Outside, you'll find a lap pool for residents who enjoy swimming as part of their exercise routine, along with a yoga lawn for fitness under Florida's famed sunny skies.

These amenities will be supported by a year-round staff, an important part of how Caymas plans to keep the Clubhouse active well beyond its opening. A wellness and fitness director, lifestyle director, food and beverage director, and clubhouse manager will oversee programming, events, dining, recreation, and day-to-day operations.

Leading the Clubhouse team is newly named Manager Liana Melle, who brings more than two decades of experience in hospitality, private clubs, food and beverage operations, and event management in Southwest Florida.

Most recently, Melle served as Clubhouse Manager at Wyndemere Country Club, overseeing front-of-house food and beverage operations that included a la carte dining, banquets, grab-and-go service, courtyard, and pool operations. She previously spent seven years as Food & Beverage Manager at Naples Lakes Country Club, where her responsibilities included dining operations, private and member events, hiring, training, and

Developed by STOCK Development in South Naples, Caymas offers a distinctive setting where luxury residences, sparkling lakes, natural preserves, and an impressive collection of amenities come together to create an active Southwest Florida lifestyle.

staff management.

Her background also includes serving as general manager of a restaurant and catering operation at Naples Botanical Garden, along with earlier management roles in country club, yacht club, and senior living settings.

Melle's experience comes at an ideal time as Caymas moves from building its Clubhouse to creating the day-to-day experience residents have been anticipating.

"I've spent my career in hospitality and club operations, and what I enjoy most is creating an environment where people feel welcome and want to spend time," said Melle. "The new Clubhouse at Caymas is going to be a special gathering place for residents, and I'm excited to be part of it from the beginning."

The Clubhouse opening comes during a period of significant activity at Caymas.

Developed by STOCK Development, Caymas is a 780-acre luxury residential community in South Naples planned for 457 homes. Lakes and natural preserves are woven throughout the community, providing a scenic backdrop for its residences and amenities.

The community's Sports Center is already open, offering residents additional opportunities for recreation and an active lifestyle.

Residential activity is moving forward as well. Pulte Homes has sold all 99 of its homesites at Caymas, with just two furnished Pulte model homes remaining available for purchase. Stock Luxury Homes and Stock Custom Homes continue to actively sell residences and homesites within the community.

STOCK is also developing new professionally designed model homes, giving prospective buyers an opportunity to walk through a broad selection of floor plans, architectural styles, interiors, and indoor-outdoor living concepts in one location.

Taken together, the new model homes, continued residential sales, and November Clubhouse opening mark an important stage in the growth of Caymas. What buyers once saw on plans is increasingly becoming part of everyday life in the community.

For more information about Caymas, available residences, and model homes, visit CaymasNaples.com or call 239-522-4724. ■

The expansive resident pool area offers a resort-style setting with outdoor dining and a tiki bar, creating an inviting place to relax, gather, and enjoy the Florida sunshine.

The new Caymas Clubhouse restaurant offers full-service dining with indoor seating, terrace dining overlooking the lake, and a private dining room residents can reserve for special occasions.

The Caymas Sports Center features six clay tennis courts and eight pickleball courts, giving residents outstanding facilities for recreational play, organized matches, and friendly competition.
