Thank You For Voting HearCare “The Best of Cooke County 2026!”

Jill Sheppard, B.S., SLP/Audiology,
Kenneth Sheppard, Jr., LFDHI

“ When you have a hearing loss, it forces your brain to work harder to interpret sounds, leaving you frustrated, exhausted, and often feeling isolated. It can also lead to more rapid cognitive decline for some people, which can be frightening. The good news is that with WIDEX’s remarkable hearing aid technology coupled with brain training customized to your needs, you can stay fully engaged with your life. Imagine the joy of casual conversations, streaming music, differentiating the sounds of nature! We want to help you maintain your independence so you can engage with friends and family – with life – more easily.

Call now. We want to help you hear all the sounds of summer. ”
