## Bailey Branch

Making a walking and biking route utilizing the Bailey Branch would allow safe travel to key features and opportunities in Monroe.

## Cross Country

A future route connection is a cross country route for students and the community to use for safe running.

## History

Monroe is full of history, like the mills, the train depot incorporated into the library, and the South Benton Community Museum.

## Future

This county owned property could be developed into a future recreational space, directly accessible by a new path.

## Long Tom

There is a potential project to install a foot bridge and a put-in location to make use of recreation on and around the Long Tom River.

Historic Brick Mill

Monroe Library

Monroe High School

Kid's Park

Water Tower

## Picnic Table

Monroe is developing a new park space, complete with a custom picnic table brought about through ambitious fundraising.

Monroe Grade School

Health Center

Come Alive Outside

Possible Future Football Field

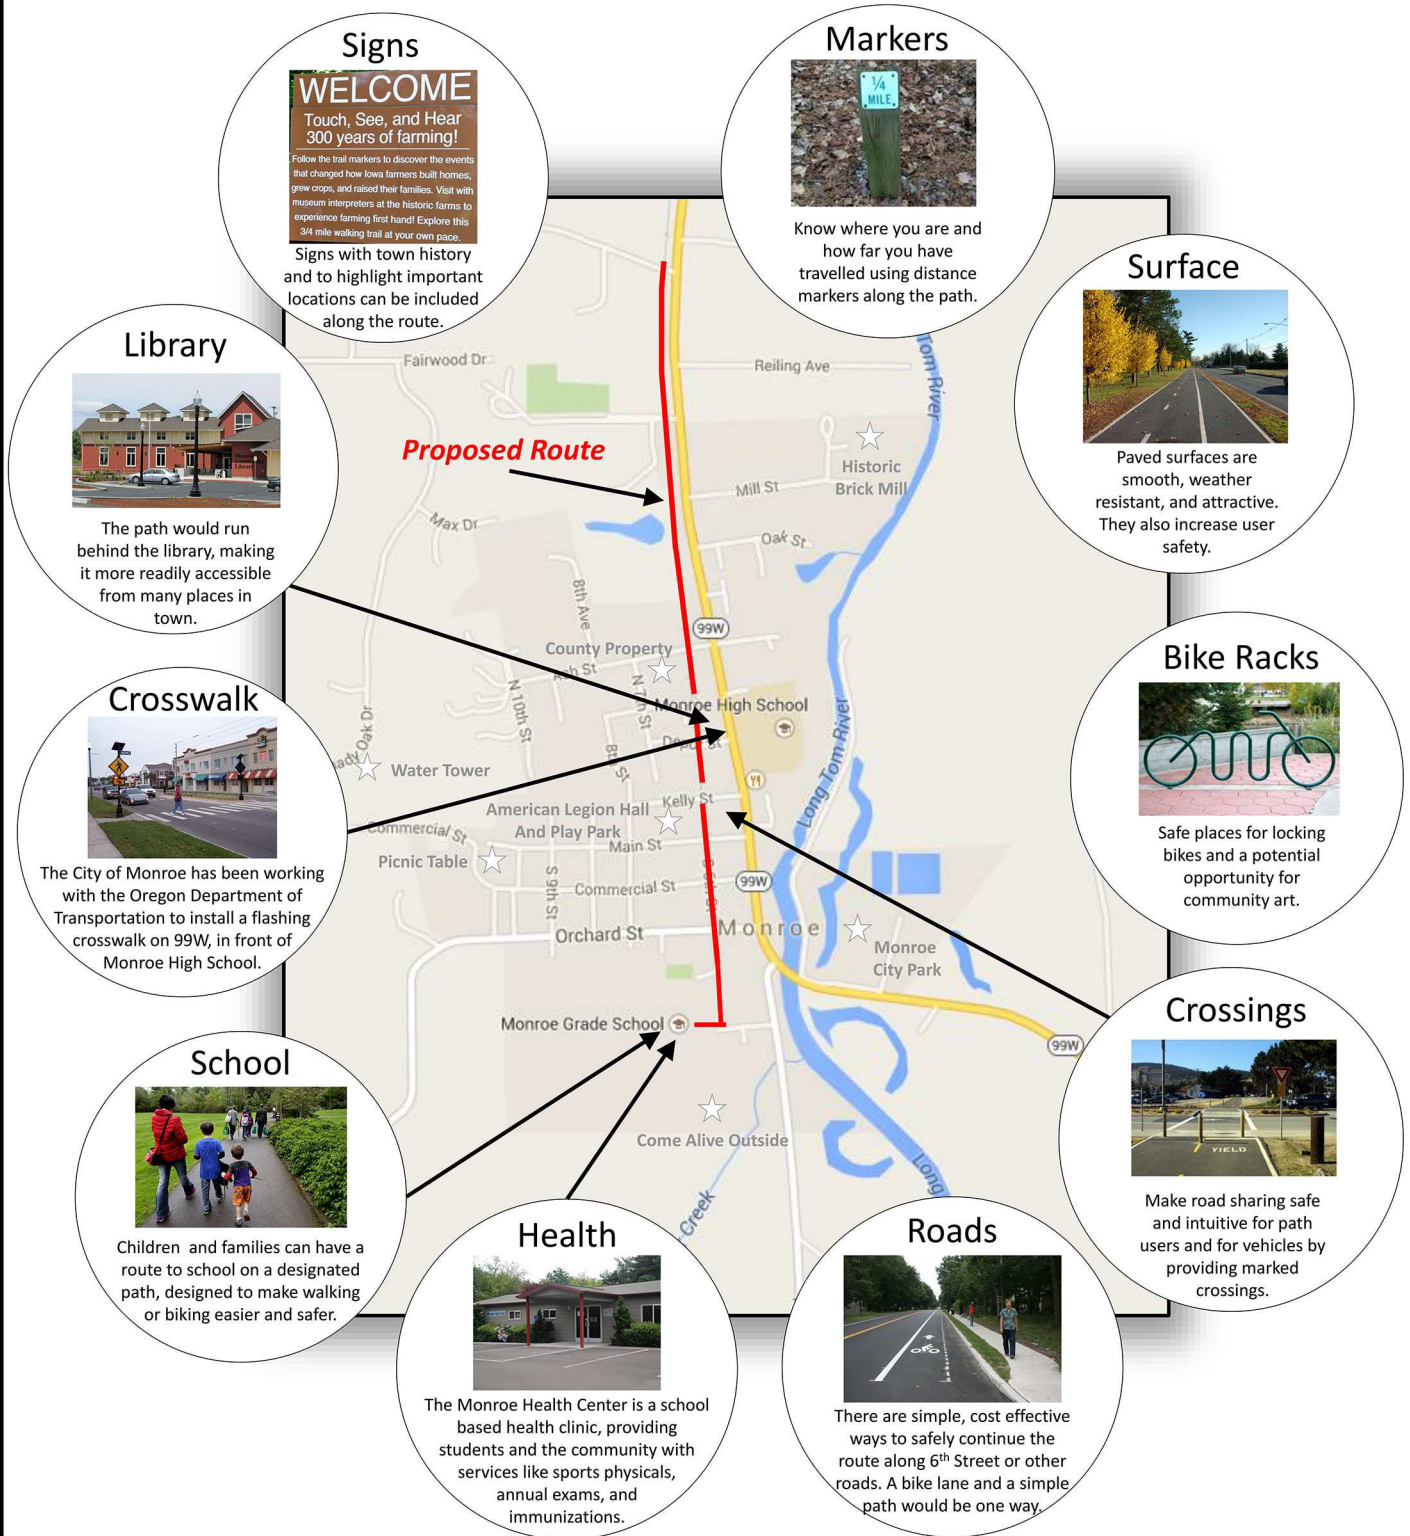

## Monroe Park

This community park features a dog park, access to sports facilities, and a potential for future park trails. New projects will make it safer to walk to.

# Route Design Examples and Connections

Designed by Sierra Kleiboeker and McKenzie Tritt at Oregon State University, 2015

This information is intended as a tool for discussion and does not represent an exhaustive list of available options and ideas. Design elements and potential connections can be changed to fit the needs of your community. We appreciate ideas and feedback. Thank you!
