

Conservation Director

The Land Conservancy is accepting applications for:

Full-time Conservation Director responsible for carrying out a wide spectrum of the organization's technical, interpersonal, and contractor-interface day-to-day operational duties including: management of easement acquisitions, annual easement monitoring, ongoing stewardship, overseeing summer intern, community education and advocacy for the organization, providing event support, grant writing, and other tasks as assigned.

Desired Knowledge, Skills and Abilities:

- Professional verbal and written communication
- Proficiency with Microsoft Office; experience with ArcGIS preferred
- Knowledge of conservation easements and Land Trust Alliance standards and practices regarding land preservation preferred
- Enjoy working outdoors
- Passion for conservation practices and a working knowledge of their benefits
- Vehicle and driver's license
- Bachelor's degree required; master's degree or certification preferred in related field
- Interest in and/or experience with agriculture and natural resource conservation

Office is located in the Adams County Agricultural and Natural Resources Center at 670 Old Harrisburg Road, Gettysburg. Transportation conducted on behalf of the organization is via personal vehicle with expenses reimbursed at the federal standard mileage rate. Evening and weekend work occasionally required.
