So Janna. I shared that email with Jodi since she did most of the work calling districts I wanted her to know what was going on. Jodi, Janna did ask Dr Micich to share this with the rest of the board so hopefully she will do that soon so everyone can see it.

Yes I do think we need to address those things. Especially with the response from Cox that he was told MC was the host school and we are the reason he was in it. Also her little slip with me and the phrase "letter of intent". I almost think we need a forensic review on the computers she uses. McGladrey and P does that. We have a lot to talk about review wise Tuesday.

"I sure thought your schools were partners in this project? We have negotiated an agreement. We sent you forms to collect information about the schools. We used references you gave us to access information about the school."

That part of the response from Tom Pinkham concerns me.

Do we know what he is referring to with "we have negotiated an agreement." ?

Have we asked Dr. Micich about that statement and what he is referring to?

Thanks

Jodi Draper
