Dave

I listened to the attachment and maybe once a month this would be a good idea for you to think about doing something like this. (?)

Let me know what you think about it. Or maybe have one of the adm staff do the summary like Tom Just thoughts and I do like the idea would like to know what you think about it.

thanks

Jodi

Jodi

Sharon and I visited our granddaughter's home in Waverly this weekend. News of the over payments reached our granddaughter, a Special Ed teacher in Olewein and her husband is is the Orchestra teacher in Waverly.

They referred this link to me:

<https://youtu.be/bAc7klfKZN0>

Oelwein's Superintendent prepares these very understandable summaries of their school board meetings. Although we already have videos of our school board meetings, at this juncture, I recommend that Dave similarly do this for our citizens and all media outlets enhancing transparency.

We should assist the citizenry in easily understood school board and administrative actions that may be overly complicated to the average person. But, the main purpose is super-transparency.

We may put this topic on our agenda if you think it is necessary. We can tell the public that we will provide these administrative summaries as an enhancement of the recent release of the audit findings.

Alan

This is an excellent idea. I'll make a plan.
