Michelle, thank you for your assistance today in this matter. Thank you in advance for forwarding this email to Judge Wilke.

Judge Wilke, I am just an average American citizen who has read about this crime. I want to ask you to please see that justice is done in this case. It seems incomprehensible to me that someone convicted of such a heinous crime could be allowed to walk free, among innocent people. How is it possible to for a prosecutor to recommend freedom for a confessed, convicted rapist?

Please do not accept the recommendation of the prosecutors in this case. In a time when our institutions seem to be failing us, please do not allow this grotesque miscarriage of justice happen.

Sincerely,
